AADR

Equity | Income | Multi-Asset | Thematic

Foreign Large Cap Growth

AdvisorShares Dorsey Wright ADR ETF

AADR focuses on traditional growth sectors and uses a technical approach to identify companies with the highest relative strength. Relative strength investing involves buying securities that have appreciated in price more than the other securities in the investment universe and holding those securities until they experience sufficient underperformance. Various risk management techniques are utilized to ensure sector, industry, and security diversification. AADR can be used in a portfolio to add a technical alpha seeking manager in your foreign equity allocation.

Risk Mitigation	Fully Invested

BEDZ

Equity | Income | Multi-Asset | Thematic

Hotels, Lodging, Travel-Related Services

AdvisorShares Hotel ETF

BEDZ invests exclusively in the hotel industry and its related services, including hotels, resorts, cruise lines, and other travel-related services. The portfolio manager uses a fundamental investment process to identify relevant companies that are establishing dominant positions in their respective markets, while also focusing on profitability and upside growth potential. BEDZ is actively managed and seeks long term capital appreciation by investing in a concentrated portfolio of U.S.-listed equities and American depositary receipts.

Benchmark Index	S&P 500 Index
Alpha Approach	Concentrated, Thematic Stock Selection
Risk Mitigation	Fully Invested

CRYP

Equity | Income | Multi-Asset | Thematic

Bitcoin Futures Exposure

AdvisorShares Managed Bitcoin Strategy ETF

CRYP is an actively managed ETF offering exposure to bitcoin cryptocurrency. CRYP seeks long-term capital appreciation through systematic risk-managed exposure to bitcoin via bitcoin futures ETFs, bitcoin futures contracts, short duration fixed income securities, and cash or cash equivalents. Based on expectations for the value of bitcoin, CRYP can tactically reduce or increase the portfolio's bitcoin exposure from anywhere from zero to fully invested. CRYP does not invest directly in bitcoin.

Strategy	Tactical Bitcoin Futures Exposure
Benchmark Index	Bitcoin Spot Return
Alpha Approach	Tactical Allocation
Risk Mitigation	Incremental move to cash based on bitcoin expectations

CWS

Equity | Income | Multi-Asset | Thematic

Domestic Large Cap Blend

AdvisorShares Focused Equity ETF

CWS invests in fundamentally sound companies that have shown consistency in their financial results and demonstrated high earnings quality. The investment strategy has been employed by the portfolio strategist, Eddy Elfenbein, since 2006 and is published annually as the Crossing Wall Street "Buy List." As a focused portfolio, CWS will typically look very different than a traditional benchmark like the S&P 500. CWS can be used in a portfolio to add a fundamental alpha seeking manager in your domestic equity allocation.

DBLV

Equity | Income | Multi-Asset | Thematic

Domestic Mid Cap Value

AdvisorShares DoubleLine Value Equity ETF

DBLV applies a differentiated approach to value investing, looking beyond "classic" value strategy and low stock prices or price-to-book ratios. Using a repeatable process, DBLV's management emphasizes a team approach to idea sourcing, detailed due diligence, a long-term time horizon and on-going risk monitoring. DBLV uses fundamental analysis to screen multiple factors for return potential and risk assessment, while also considering macroeconomic and business cycle factors. While DBLV is not limited by market-cap, it will typically hold 30-50 larger-cap U.S. traded equities.

DWAW

Equity | Income | Multi-Asset | Thematic

Global All-Cap

AdvisorShares Dorsey Wright FSM All Cap World ETF

DWAW is an actively managed, global strategy that provides an objective, rules-based approach to "go-anywhere" equity investing. Using Nasdaq Dorsey Wright's relative strength-based Fund Score Method framework, DWAW tactically allocates its portfolio to only the highest ranked securities in its investment universe and may include exposure to domestic, international, or emerging markets; small, mid or large caps; growth or value styles; factor- or market-based weights; or even cash. DWAW seeks to identify and benefit from changing leadership themes in the market.

Alpha Approach	Technical Fund Selection
Risk Mitigation	Incremental move to cash based on momentum indicators

DWEQ

Equity | Income | Multi-Asset | Thematic

Domestic Large Cap Growth

AdvisorShares Dorsey Wright Alpha Equal Weight ETF

DWEQ takes a modern targeted sector approach to domestic large cap equities. Using a technically driven process, DWEQ identifies industry sectors and companies with the high relative strength and invests equally in the top ranked U.S. equity securities within the three highest ranked sectors. Regularly, DWEQ will rebalance its portfolio to maintain targeted exposure to the highest relative strength sectors and equal weighted allocation to the strongest stocks in those sectors. DWEQ seeks to add alpha by tactically targeting sectors based on the successful relative strength trend process.

Strategy	Technical, Relative Strength, Tactical Sector Rotation
Benchmark Index	S&P 500 Index
Alpha Approach	Concentrated, Technical Sector and Stock Selection
Risk Mitigation	Incremental move to cash based on momentum indicators

DWMC

Equity | Income | Multi-Asset | Thematic

Domestic Micro Cap Growth

AdvisorShares Dorsey Wright Micro-Cap ETF

DWMC focuses on micro cap companies and uses a technical approach to identify the ones with the highest relative strength. Relative strength investing involves buying securities that have appreciated in price more than others in the investment universe and holding those securities until they exhibit sell signals. Management seeks to spread out allocations within its portfolio, trimming back a security's weight when it becomes too large. Typically, DWMC will hold 150+ micro cap stocks.

DWSH

Equity	Income	Multi-Asset	Thematic

U.S. Listed Equity

AdvisorShares Dorsey Wright Short ETF

DWSH implements a technical stock selection process to short large cap U.S. equities utilizing Dorsey's proprietary relative strength process. DWSH will short sell securities exhibiting the high relative weakness from its universe. Relative weakness investing involves short selling securities that have depreciated in price more than others in their investment universe and holding those securities until they exhibit buy signals. DWSH can be used as part of a long/short strategy to hedge an investor's long domestically traded equity exposure.

Strategy	Technical, Relative Strength, Short Selling
Benchmark Index	S&P 500 Index
Alpha Approach	Technical Stock Selection
Risk Mitigation	After bear market trigger, moves from concentrated to broad market

DWUS

Equity	Income	Multi-Asset	Thematic

Domestic Large Cap Growth

AdvisorShares Dorsey Wright FSM U.S. Core ETF

DWUS is an actively managed, targeted U.S. Core market strategy applying a technical, systematically-driven process to answer the question – "What part of the U.S. Large Cap equity market should be owned?" Using Nasdaq Dorsey Wright's Fund Score Method framework, DWUS allocates its portfolio to the domestic large cap funds in its U.S. Core investment universe that demonstrate the highest-ranked relative strength, regularly reassessing and reallocating its holdings. DWUS's tactical strategy seeks to benefit from evolving factor- or market-based themes in the domestic large cap equity market.

HDGE

Equity | Income | Multi-Asset | Thematic

U.S. Listed Equity

AdvisorShares Ranger Equity Bear ETF

HDGE implements a fundamental, research driven stock selection process based on forensic accounting techniques that short sell U.S. listed equities. HDGE seeks to identify stocks with low earnings quality or aggressive accounting designed to bolster short-term corporate performance and may exhibit above-average downside volatility. HDGE may be used to hedge volatility and risk for similar long equity exposure, seeking positive returns in a declining equity market.

Strategy	Fundamental Short Selling
Benchmark Index	S&P 500 Index
Alpha Approach	Stock Selection
Risk Mitigation	Defensive cash up to 20%

HOLD

Equity | Income | Multi-Asset | Thematic

Ultra-Short Duration Bond

AdvisorShares North Square McKee Core Reserves ETF

HOLD seeks to maximize income while preserving capital. To achieve its investment objective, HOLD invests in a broad range of short-term, U.S. dollar-denominated fixed income securities, including investment grade corporate debt, mortgage- or asset-backed, and government securities. Actively managed by CS McKee, HOLD follows a straight-forward investment strategy focused primarily on liquidity, quality and diversification, while adding value primarily through security selection, sector allocation and active risk management. HOLD's goal is to provide higher than benchmark yields while maintaining investment grade credit quality and liquidity.

LETB

Equity | Income | Multi-Asset | Thematic

Domestic All-Cap Growth

AdvisorShares Let Bob AI Powered Momentum ETF

In the investment management industry, technology, automation, and access to unique data are some key drivers for success in portfolio management. LETB incorporates these drivers into its investment strategy, analyzing a unique blend of fundamental data including companies expected to exceed earnings estimates, digital sentiment, and strong technical price momentum. LETB's proprietary analysis results in a portfolio of select stocks the advisor believes are expected to outperform. In addition to the goal of adding alpha though stock selection, LETB also monitors overall market conditions and can lower equity exposure or move to cash for additional risk management in downward trending markets.

MENV

Equity | Income | Multi-Asset | Thematic

ESG Bond

AdvisorShares North Square McKee ESG Core Bond ETF

MENV is actively managed seeking to outperform the benchmark index's price and yield performance while also investing in issuers with positive environmental, social, and corporate governance (ESG) characteristics. MENV invests in a broad range of fixed income securities, including investment grade corporate debt, mortgage- or asset-backed, and government securities. MENV relies on a proprietary ESG assessment model which looks to provide an unbiased evaluation of a company's actions and dedication to sustainable practices and alignment with the UN's Principles for Responsible Investment Sustainable Development Goals.

ADVISORSHARES® Actively Managed ETFs

MINC

Equity | **Income** | Multi-Asset | Thematic

Short Duration Multi-Sector

AdvisorShares Newfleet Multi-Sector Income ETF

MINC provides exposure to low duration fixed income consistent with preservation of capital, while limiting fluctuations in net asset value due to changes in interest rates. The portfolio manager uses an active sector rotation process to identify areas of the fixed income market that they believe may outperform. The fund employs a disciplined risk management approach that seeks to minimize exposure to higher risk sectors of the market. MINC can be used to provide conservative income to a portfolio.

MSOS

Equity | Income | Multi-Asset | **Thematic**

Cannabis Exposure

AdvisorShares US Pure Cannabis ETF

MSOS seeks growth opportunities by offering exposure to U.S. companies across multiple industries engaged in the cannabis business. The portfolio manager uses a fundamental investment process to identify cannabis-related companies that are establishing dominant positions in their respective markets, while also focusing on profitability and upside growth potential. Additionally, MSOS is actively managed and can adjust its portfolio more quickly and opportunistically than a passive index-based strategy – an important attribute in a rapidly evolving cannabis marketplace.

PSDN

Equity | Income | Multi-Asset | **Thematic**

Cannabis Exposure & Leverage

AdvisorShares Poseidon Dynamic Cannabis ETF

PSDN is an actively managed global equity ETF investing in companies believed to be strategically positioned to benefit from the cannabis industry and the infrastructure supporting it. While PSDN seeks to diversify its portfolio across geographic regions and cannabis subsectors, it is dynamically managed to tactically overweight (or underweight) specific countries, cannabis subsectors, or individual companies. PSDN may seek to take advantage of specific market opportunities by using leverage to add greater exposure to specific cannabis companies for which portfolio management has the greatest conviction.

PSIL

Equity | Income | Multi-Asset | **Thematic**

Psychedelic Exposure

AdvisorShares Psychedelics ETF

PSIL invests in the emerging psychedelic drugs sector, offering exposure to those biotechnology, pharmaceutical, life sciences, and mental health companies we see as leading the way in this nascent industry. Ongoing and growing research has shown various psychedelic substances offering promising medical and therapeutic potential for treating mental health issues and neurological disorders. PSIL concentrates its portfolio on U.S. or foreign companies deriving the majority of their net revenue or devoting the majority of their assets to psychedelic drugs. PSIL will invest predominantly in micro, small, and mid cap stocks.

ADVISORSHARES® Actively Managed ETFs

QPT

Equity | Income | **Multi-Asset** | Thematic

Tactical Balanced

AdvisorShares Q Portfolio Blended Allocation ETF

QPT is an actively managed asset allocation ETF seeking to outperform traditional balanced funds while managing downside risk during abnormal market volatility. Using ETFs, QPT may invest in domestic, foreign, equities; government, municipal, and corporate fixed income; and commodities. QPT applies Q Methodology's proprietary risk management strategy to optimally allocate the fund's assets against a given level of risk. Normally, QPT invests in both equities and fixed income ETFs to provide balanced fund-like returns. When market volatility is high, QPT can tactically allocate to a more defensive portfolio and seek short-term fixed income returns.[1]

SENT

Equity | Income | Multi-Asset | Thematic

Domestic Hedged

AdvisorShares Alpha DNA Equity Sentiment ETF

SENT seeks to deliver capital appreciation from an all cap equity portfolio while mitigating losses when markets turn bearish with a hedging strategy. Deploying machine learning and alternative data analytics, SENT's proprietary research platform analyzes customers' digital footprints to decode sentiment which serves as a proxy for tailwinds in demand. SENT's goal is to identify companies growing faster than Wall Street's. expectations. Because markets are uncertain, SENT uses a disciplined hedging strategy to manage downside risk and to offset losses in a material market sell off.

Strategy	Machine Learning; Assessing Digital Signals
Benchmark Index	Russell 3000 Index
Alpha Approach	Stock Selection by Decoding Sentiment
Risk Mitigation	Always Hedged

VEGA

Equity | Income | **Multi-Asset** | Thematic

Global Alternative Asset Allocation

AdvisorShares STAR Global Buy-Write ETF

VEGA is a low volatility, moderate risk global balanced portfolio that strategically allocates to the capital markets, tactically weights regions, sectors, or securities and then employs option strategies seeking to create additional sources of income and enhancements to risk management. Over a market cycle, the portfolio manager strives to manage the portfolio to a beta of 0.6 of the S&P 500. VEGA can serve as a complete portfolio or core holding.

VICE

Equity | Income | Multi-Asset | **Thematic**

Alcohol, Gambling, Tobacco Exposure

AdvisorShares Vice ETF

VICE offers concentrated equity exposure to global companies in the alcohol, gambling, and tobacco industries that historically have exhibited consistent, steady growth with durable moat advantages. These areas of the market can be viewed as recession-resistant as consumers traditionally spend on leisure and vices in all economic environments. VICE also invests in companies providing products or services related to gaming, food and beverage, restaurant and hospitality, or other vice-related consumer trends. VICE can serve as a growth equity allocation in a diversified portfolio.

BEDZ and EATZ invests in the hotels, restaurants & leisure industry. The prices of securities of companies in the industry may fluctuate widely due to general economic conditions, consumer spending and the availability of disposable income, changing consumer tastes and preferences and consumer demographics, in addition may be affected by the availability and expense of liability insurance. **Derivatives, as associated with VEGA and YOLO**, may be riskier and more sensitive to changes in economic or market conditions than other types of investments and could result in losses that significantly exceed the Fund's original investment. **DWSH, HDGE and VEGA may participate in leveraged transactions** to include selling securities short which creates the risk of magnified capital losses. Under certain market conditions, short sales can increase the volatility and decrease the liquidity of certain securities or positions and may lower the Fund's return or result in a loss. **Writing and purchasing call and put options** are specialized activities and entail greater than ordinary investment risk when considering DWSH or VEGA. **AADR may use ADRs** which are subject to the risk of change in political or economic conditions and exchange rates in foreign currencies. **HOLD's investment in fixed income securities** will change in value in response to interest rate changes and other factors, such as the perception of the issuer's creditworthiness.

Model and Data Risk. The use of predictive models has inherent risk. Because predictive models are usually constructed based on historical data supplied by third parties, the success of relying on such models may depend heavily on the accuracy and reliability of the supplied historical data.

Cannabis-related companies are subject to various laws and regulations that may differ at the state/local and federal level. These laws and regulations may (i) significantly affect a cannabis-related company's ability to secure financing, (ii) impact the market for marijuana industry sales and services, and (iii) set limitations on marijuana use, production, transportation, and storage. In addition, cannabis-related companies are subject to the risks associated with the greater agricultural industry, including changes to or trends that affect commodity prices, labor costs, weather conditions, and laws and regulations related to environmental protection, health and safety. The risks associated with each Fund include the risks associated with the underlying ETFs, which can result in higher volatility, and are detailed in each Fund's prospectus. These Funds may not be suitable for all investors.

Psychedelics Companies Risk. Psychedelics companies are subject to various laws and regulations that may differ at the state/local and federal level. These laws and regulations may significantly affect a psychedelics company's ability to secure financing, impact the market for psychedelics and business sales and services, and set limitations on psychedelics use, production, transportation, and storage. There can be no guarantees that such approvals or administrative actions will happen or be favorable for psychedelics companies, and such actions may be subject to lengthy delays, and may require length and expensive clinical trials. Additionally, therapies containing controlled substances may generate public controversy. Political and social pressures and adverse publicity could lead to delays in approval of, and increased expenses for, companies and any future therapeutic candidates they may develop. All of these factors and others may prevent psychedelics companies from becoming profitable, which may materially affect the value of certain Fund investments. In addition, psychedelics are subject to the risks associated with the biotechnology and pharmaceutical industries.

Drone Companies Risk. Drone companies may have limited product lines, markets, financial resources or personnel and are subject to the risks of changes in business cycles, world economic growth, technological progress, and government regulation. Securities of drone companies, especially smaller, start-up companies, tend to be more volatile than securities of companies that do not rely heavily on technology.

Bitcoin Risk: Bitcoin is a relatively new asset with a limited history. It is subject to unique and substantial risks, and historically has been a highly speculative asset and has experienced significant price volatility. While the Fund will not invest directly in bitcoin, the value of the Fund's investments in Bitcoin Futures and Bitcoin ETFs is subject to fluctuations in the value of the bitcoin, which may be highly volatile. Investors may lose entire principal. Through its investments in Bitcoin ETFs, the Fund is subject to the risks associated with their investments and structure as ETFs. The price and performance of bitcoin futures should be expected to differ from the current "spot" price of bitcoin. These differences could be significant.

Shares are bought and sold at market price (closing price) not NAV and are not individually redeemed from the Fund. Market price returns are based on the midpoint of the bid/ask spread at 4:00pm Eastern Time (when NAV is normally determined), and do not represent the return you would receive if you traded at other times. Holdings and allocations are subject to risks and to change.

Before investing you should carefully consider the Fund's investment objectives, risks, charges and expenses. This and other information is in the prospectus, a copy of which may be obtained by visiting the Fund's website at www.AdvisorShares.com. Please read the prospectus carefully before you invest.
