**ADVISORSHARES DORSEY WRIGHT ALPHA EQUAL WEIGHT ETF**  
**NASDAQ Stock Market LLC Ticker: DWEQ**

**Supplement dated March [21], 2023 to the  
Summary Prospectus, Prospectus, and Statement of Additional Information  
dated November 1, 2022**

**This supplement provides new and additional information beyond that contained in the Summary Prospectus, Prospectus, and Statement of Additional Information for the AdvisorShares Dorsey Wright Alpha Equal Weight ETF (the “Fund”) and should be read in conjunction with those documents.**

---

At the recommendation of AdvisorShares Investments, LLC, the investment adviser to the series of AdvisorShares Trust (the “Trust”), the Trust’s Board of Trustees approved the liquidation of the Fund pursuant to the terms of a Plan of Liquidation. Accordingly, the Fund is expected to cease operations, liquidate its assets, and distribute the liquidation proceeds to shareholders of record on or about April 10, 2023 (the “Liquidation Date”).

The last day of trading of Fund shares on the NASDAQ Stock Market LLC is expected to be March 31, 2023. Between the last day of trading and the Liquidation Date, shareholders will not be able to purchase or sell shares in the secondary market. Prior to the last day of trading, shareholders may continue to purchase and sell shares through a broker in the standard manner. Customary brokerage charges may apply to such transactions. Between the last day of trading and the Liquidation Date, the Fund will deviate from its stated investment objective and strategies as it winds up its business and affairs.

On or promptly after the Liquidation Date, the Fund will distribute to its remaining shareholders a liquidating cash distribution equal to the net asset value of the shareholders’ shares as of the close of business on the Liquidation Date. This amount includes any accrued capital gains and dividends. Shareholders remaining in the Fund on the Liquidation Date will not be charged any transaction fees by the Fund. The net asset value of the Fund on the Liquidation Date will reflect the costs of closing the Fund. The liquidating cash distribution to shareholders will be treated as payment in exchange for their shares. The liquidation of Fund shares may be treated as a taxable event. Shareholders should contact their tax advisor to discuss the income tax consequences of the liquidation.

**PLEASE RETAIN THIS SUPPLEMENT FOR FUTURE REFERENCE.**

**SUMMARY PROSPECTUS – November 1, 2022**

Before you invest in the AdvisorShares Fund, you may want to review the Fund’s prospectus and statement of additional information, which contain more information about the Fund and the risks of investing in the Fund. The Fund’s current prospectus and statement of additional information, each dated November 1, 2022, as supplemented from time to time, are incorporated by reference into this summary prospectus. You can find the Fund’s prospectus and statement of additional information, as well as other information about the Fund, online at <http://advisorshares.com/etfs/dweq>. You may also obtain this information at no charge by calling 877.843.3831 or by sending an email request to [info@advisorshares.com](mailto:info@advisorshares.com).

**INVESTMENT OBJECTIVE**

---

The AdvisorShares Dorsey Wright Alpha Equal Weight ETF (the “Fund”) seeks to provide long-term capital appreciation.

**FUND FEES AND EXPENSES**

---

This table describes the fees and expenses that you may pay if you buy, hold, and sell shares of the Fund. **You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the table below.**

<b>SHAREHOLDER FEES</b> <i>(fees paid directly from your investment)</i>	None
<b>ANNUAL FUND OPERATING EXPENSES</b> <i>(expenses that you pay each year as a percentage of the value of your investment)</i>	
MANAGEMENT FEES	0.75%
DISTRIBUTION (12b-1) FEES	0.00%
OTHER EXPENSES	0.24%
ACQUIRED FUND FEES AND EXPENSES*	0.01%
<b>TOTAL ANNUAL OPERATING EXPENSES</b>	<b>1.00%</b>

\* Total Annual Operating Expenses and Total Annual Operating Expenses After Waiver/Reimbursement in this fee table may not correlate to the expense ratios in the Fund’s financial highlights because the financial highlights include only the Fund’s direct operating expenses and do not include Acquired Fund Fees and Expenses, which represent the Fund’s pro rata share of the fees and expenses of money market funds in which it invests.

## EXAMPLE

This Example is intended to help you compare the cost of investing in the shares of the Fund with the cost of investing in other funds. This Example does not take into account brokerage commissions and other fees to financial intermediaries that you may pay when purchasing or selling shares of the Fund. If these fees were included, your costs would be higher.

The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then sell all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	1 YEAR	3 YEARS	5 YEARS	10 YEARS
<b>AdvisorShares Dorsey Wright Alpha Equal Weight ETF</b>	\$102	\$318	\$552	\$1,225

## PORTFOLIO TURNOVER

---

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in Total Annual Operating Expenses or in the Example, affect the Fund's performance. This rate excludes the value of portfolio securities received or delivered as a result of in-kind creations or redemptions of the Fund's shares. During the most recent fiscal year, the Fund's portfolio turnover rate was 495% of the average value of its portfolio.

## PRINCIPAL INVESTMENT STRATEGIES

---

The Fund is an actively managed exchange-traded fund ("ETF") that seeks to achieve its investment objective by investing in a concentrated portfolio of U.S. equity securities selected from a universe of the largest 1,000 U.S. equity securities based on market capitalization.

The Advisor allocates the Fund's portfolio using research from a disciplined and quantitative proprietary model (the "U.S. Equal Weight Model") developed by Dorsey, Wright and Associates, LLC ("DWA"). The U.S. Equal Weight Model utilizes a two-factor approach to invest generally in the top-ranked 40-50 large-cap equity securities on an equal-weighted basis. In constructing the model, industry sectors are first measured and ranked based on their relative strength, and individual equity securities are then selected from the top three sectors. The individual securities selections are also based on relative strength, with securities demonstrating both a buy or bullish signal and rising price momentum ranked higher by the model. The Fund's portfolio is rebalanced monthly and may experience high turnover.

The Fund's investment focus follows a core philosophy of relative strength. Relative strength investing involves buying securities that have appreciated in price more than the other securities in the investment universe and holding those securities until they underperform. The strategy is entirely based on market movement of the securities and there is no company fundamental data involved in the analysis. The Advisor's process is systematic and removes emotion from the day-to-day decision making. In implementing the strategy, stock selection is strictly based on identifying the highest ranked securities as measured by the relative strength investment process.

The Fund also may invest in repurchase agreements.

## **PRINCIPAL RISKS OF INVESTING IN THE FUND**

---

The Fund is subject to a number of risks, described below, that may affect the value of its shares including the possible loss of money. As with any fund, there is no guarantee that the Fund will achieve its investment objective.

**Equity Risk.** The prices of equity securities rise and fall daily. These price movements may result from factors affecting individual issuers, industries or the stock market as a whole. In addition, equity markets tend to move in cycles which may cause stock prices to fall over short or extended periods of time.

**ETF Market Risk.** In stressed market conditions, the market for certain ETF shares may become less liquid in response to deteriorating liquidity in the markets for the ETF's underlying portfolio holdings. This adverse effect on liquidity for the ETF's shares in turn can lead to differences between the market price of the ETF's shares and the underlying value of those shares. In addition, there are a limited number of institutions that act as authorized participants. If these institutions exit the business or are, for any reason, unable to process creation and/or redemption orders with respect to the Fund, or purchase and sell securities in connection with creation and/or redemption orders, as applicable, and no other authorized participant steps forward to create or redeem, or purchase or sell securities, as applicable, Fund shares may trade at a premium or discount to their net asset value ("NAV") and possibly face operational issues such as trading halts and/or delisting. The absence of an active market in the Fund's shares could lead to a heightened risk of differences between the market price of the Fund's shares and the underlying value of those shares.

**Large-Capitalization Risk.** The large-cap segment of the market may underperform other segments of the equity market or the equity market as a whole. The underperformance of large-cap securities may cause the Fund's performance to be less than expected.

**Management Risk.** The Advisor continuously evaluates the Fund's holdings, purchases and sales with a view to achieving the Fund's investment objective. However, achievement of the stated investment objective cannot be guaranteed. The Advisor's judgment about the markets, the economy, or companies may not anticipate actual market movements, economic conditions or company performance, and these factors may affect the return on your investment.

**Market Risk.** Due to market conditions, the value of the Fund's investments may fluctuate significantly from day to day. Price fluctuations may be temporary or may last for extended periods. This volatility may cause the value of your investment in the Fund to decrease. Local, regional, or global events such as war, acts of terrorism, the spread of infectious illness or other public health issues, recessions, uncertainties regarding interest rates, rising inflation, or other events could have a significant impact on the market generally and on specific securities. The market value of a security may also decline because of factors that affect a particular industry or industries, such as labor shortages or increased production costs and competitive conditions within an industry. Because of its link to the markets, an investment in the Fund may be more suitable for long-term investors who can bear the risk of short-term principal fluctuations, which at times may be significant.

**Portfolio Turnover Risk.** The Fund may experience relatively high portfolio turnover, which may result in increased transaction costs and performance that is lower than expected and potentially greater tax exposure.

**Repurchase Agreement Risk.** The Fund will be subject to credit risk with respect to the counterparties with which the Fund enters into repurchase agreements, including with respect to recovering or realizing on collateral.

**Sector Focus Risk.** When the Fund focuses its investments in a particular sector, financial, economic, business, and other developments affecting issuers in that sector will have a greater effect on the Fund than if it had not done so.

**Trading Risk.** Shares of the Fund may trade above or below their NAV. The trading price of the Fund's shares may deviate significantly from their NAV during periods of market volatility and, in such instances, you may pay significantly more or receive significantly less than the underlying value of the Fund's shares. There can be no assurance that an active trading market for the Fund's shares will develop or be maintained. In addition, trading in shares of the Fund may be halted because of market conditions or for reasons that, in the view of the NASDAQ Stock Market LLC (the "Exchange"), make trading in shares inadvisable.

## FUND PERFORMANCE

The bar chart and table that follow show how the Fund has performed on a calendar year basis and provide an indication of the risks of investing in the Fund. The table also shows how the Fund's performance compares to the S&P 500 Index, which is a broad-based, unmanaged measurement of changes in stock market conditions based on the average of 500 widely held common stocks. Both the bar chart and the table assume the reinvestment of all dividends and distributions. Past performance (before and after taxes) does not necessarily indicate how the Fund will perform in the future.

Updated performance information is available on the Fund's website at [www.advisorshares.com](http://www.advisorshares.com).

### Calendar Year Total Returns

The Fund's year-to-date total return as of September 30, 2022 was -32.35%.

### Best and Worst Quarter Returns (for the period reflected in the bar chart above)

	Return	Quarter/Year
Highest Return	17.90%	3Q/2020
Lowest Return	-26.09%	1Q/2020

### AVERAGE ANNUAL TOTAL RETURNS FOR THE PERIODS ENDED DECEMBER 31, 2021

ADVISORSHARES DORSEY WRIGHT ALPHA EQUAL WEIGHT ETF	1 Year	Since Inception (12/26/2019)
Return Before Taxes Based on NAV	2.58%	6.54%
Return After Taxes on Distributions	2.06%	6.27%
Return After Taxes on Distributions and Sale of Fund Shares	1.58%	4.92%
S&P 500 Index (reflects no deduction for fees, expenses, or taxes)	28.71%	23.11%

After-tax returns are calculated using the highest historical individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on your tax situation and may differ from those shown and are not relevant if you hold your shares through tax-advantaged arrangements, such as 401(k) plans or individual retirement accounts. In some cases the return after taxes may exceed the return before taxes due to an assumed tax benefit from any losses on a sale of Fund shares at the end of the measurement period.

## **MANAGEMENT**

---

<b>Name</b>	<b>Title</b>
AdvisorShares Investments, LLC	Advisor

## **PORTFOLIO MANAGER**

<b>Name and Title</b>	<b>Length of Service with Advisor</b>
<b>Dan S. Ahrens</b> , <i>Managing Director, Chief Operating Officer, Chief Investment Officer &amp; Portfolio Manager</i>	since November 2008

## **PURCHASE AND SALE OF FUND SHARES**

---

The Fund issues and redeems shares on a continuous basis at NAV only in a large specified number of shares called a “Creation Unit.” Only institutional investors that are acting as the Fund’s authorized participants (typically broker-dealers) may purchase or redeem Creation Units. A Creation Unit transaction generally is conducted in exchange for a deposit of cash totaling the NAV of the Creation Units.

Individual Fund shares may only be purchased and sold in secondary market transactions through brokers. The shares of the Fund are listed on the Exchange and, because shares trade at market price rather than at NAV, shares may trade at a value greater than (premium) or less than (discount) NAV. When buying or selling shares in the secondary market, you may incur costs attributable to the difference between the highest price a buyer is willing to pay to purchase shares of the Fund (bid) and the lowest price a seller is willing to accept for shares of the Fund (ask) (the “bid-ask spread”). Recent information regarding the Fund’s NAV, market price, premiums and discounts, and bid-ask spreads will be available on the Fund’s website at [www.advisorshares.com](http://www.advisorshares.com).

## **TAX INFORMATION**

---

The Fund intends to make distributions that may be taxed as ordinary income, qualified dividend income or capital gains (or a combination thereof), unless you are investing through a tax-advantaged arrangement such as a 401(k) plan or an individual retirement account (“IRA”), which may be taxed upon withdrawal.

## **PAYMENTS TO BROKER-DEALERS AND OTHER FINANCIAL INTERMEDIARIES**

---

Investors purchasing shares in the secondary market through a brokerage account or with the assistance of a broker may be subject to brokerage commissions and charges. If you purchase Fund shares through a broker-dealer or other financial intermediary (such as a bank), the Advisor may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing broker-dealers or other intermediaries and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary’s website for more information.
