

ADVISORSHARES DORSEY WRIGHT MICRO-CAP ETF (NASDAQ Ticker: DWMC)

SUMMARY PROSPECTUS – November 1, 2020

Before you invest in the AdvisorShares Fund, you may want to review the Fund’s prospectus and statement of additional information, which contain more information about the Fund and the risks of investing in the Fund. The Fund’s current prospectus and statement of additional information, each dated November 1, 2020, as supplemented from time to time, are incorporated by reference into this summary prospectus. You can find the Fund’s prospectus and statement of additional information, as well as other information about the Fund, online at <http://advisorshares.com/etfs/dwmc>. You may also obtain this information at no charge by calling 877.843.3831 or by sending an email request to info@advisorshares.com.

Beginning on January 1, 2021, as permitted by regulations adopted by the U.S. Securities and Exchange Commission, paper copies of the Fund’s shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the reports from your financial intermediary, such as a broker-dealer or bank. Instead, the reports will be made available on a website, and you will be notified by mail each time a report is posted and provided with a website link to access the report. If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. Please contact your financial intermediary to elect to receive shareholder reports and other communications electronically. You may elect to receive all future reports in paper free of charge. Please contact your financial intermediary to continue receiving paper copies of your shareholder reports and for information about whether your election to receive reports in paper will apply to all funds held with your financial intermediary.

INVESTMENT OBJECTIVE

The AdvisorShares Dorsey Wright Micro-Cap ETF (the “Fund”) seeks long term capital appreciation.

FUND FEES AND EXPENSES

This table describes the fees and expenses that you may pay if you buy, hold, and sell shares of the Fund. You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the table below.

SHAREHOLDER FEES (<i>fees paid directly from your investment</i>)	None
ANNUAL FUND OPERATING EXPENSES (<i>expenses that you pay each year as a percentage of the value of your investment</i>)	
MANAGEMENT FEES	0.75%
DISTRIBUTION (12b-1) FEES	0.00%
OTHER EXPENSES	4.23%
ACQUIRED FUND FEES AND EXPENSES ^(a)	0.07%
TOTAL ANNUAL OPERATING EXPENSES	5.05%
FEE WAIVER/EXPENSE REIMBURSEMENT ^(b)	-3.73%
TOTAL ANNUAL OPERATING EXPENSES AFTER FEE WAIVER/EXPENSE REIMBURSEMENT	1.32%

- (a) *Total Annual Operating Expenses and Total Annual Operating Expenses After Fee Waiver/Expense Reimbursement in this fee table may not correlate to the expense ratios in the Fund's financial highlights (and the Fund's financial statements) because the financial highlights include only the Fund's direct operating expenses and do not include Acquired Fund Fees and Expenses, which represent the Fund's pro rata share of the fees and expenses of money market funds in which it invested as a temporary defensive measure.*
- (b) *AdvisorShares Investments, LLC (the "Advisor") has contractually agreed to waive its fees and/or reimburse expenses to keep net expenses (excluding amounts payable pursuant to any plan adopted in accordance with Rule 12b-1, interest expense, taxes, brokerage commissions, acquired fund fees and expenses, other expenditures which are capitalized in accordance with generally accepted accounting principles, and extraordinary expenses) from exceeding 1.25% of the Fund's average daily net assets for at least one year from the date of this Prospectus. The expense limitation agreement may be terminated without payment of any penalty (i) by the Trust for any reason and at any time and (ii) by the Advisor, for any reason, upon ninety (90) days' prior written notice to the Trust, such termination to be effective as of the close of business on the last day of the then-current one-year period. If it becomes unnecessary for the Advisor to waive fees or reimburse expenses, the Trust's Board of Trustees may permit the Advisor to retain the difference between the Fund's total annual operating expenses and the expense limitation currently in effect, or, if lower, the expense limitation that was in effect at the time of the waiver and/or reimbursement, to recapture all or a portion of its prior fee waivers or expense reimbursements within three years of the date they were waived or reimbursed.*

EXAMPLE

This Example is intended to help you compare the cost of investing in the shares of the Fund with the cost of investing in other funds. This Example does not take into account brokerage commissions and other fees to financial intermediaries that you may pay when purchasing or selling shares of the Fund. If these fees were included, your costs would be higher.

The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then sell all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	1 YEAR	3 YEARS	5 YEARS	10 YEARS
AdvisorShares Dorsey Wright Micro-Cap ETF	\$135	\$1,182	\$2,228	\$4,839

PORTFOLIO TURNOVER

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in Total Annual Operating Expenses or in the Example, affect the Fund's performance. This rate excludes the value of portfolio securities received or delivered as a result of in-kind creations or redemptions of the Fund's shares. During the most recent fiscal year, the Fund's portfolio turnover rate was 119% of the average value of its portfolio.

PRINCIPAL INVESTMENT STRATEGIES

The Fund is an actively-managed exchange-traded fund ("ETF") that seeks to achieve its investment objective by investing primarily in U.S.-traded equity securities consisting of common and preferred stock and American Depositary Receipts ("ADRs"). ADRs are securities traded on a local exchange stock exchange that represent interests in securities issued by a foreign publicly listed company. Under normal circumstances, the Fund invests at least 80% of its net assets (plus any borrowings for investment purposes) in micro-cap securities. The Fund's sub-advisor, Dorsey, Wright & Associates, LLC (the "Sub-Advisor"), generally defines a micro-cap company as one having a market capitalization under one billion dollars. In choosing micro-cap securities, the Sub-Advisor creates an investable universe of securities consisting of companies included in the lower half of the Russell 2000 Index based on market capitalization and an additional 1,000 companies with low market capitalizations that are not included in the Russell 2000 Index. This universe of investable securities is limited by certain liquidity screens such as a threshold based on a security's three-month average dollar volume traded.

The Fund's investment focus follows the Sub-Advisor's core philosophy of relative strength. Relative strength investing involves buying securities that have appreciated in price more than the other securities in the investment universe and holding those securities until they underperform. The strategy is entirely based on market movement of the securities and there is no company fundamental data involved in the analysis. The Sub-Advisor's process is systematic and removes emotion from the day-to-day decision making. In implementing the strategy, stock selection is strictly based on identifying the highest ranked securities as measured by the relative strength investment process. The Fund's strategy may frequently involve buying and selling securities, which may lead to relatively high portfolio turnover.

PRINCIPAL RISKS OF INVESTING IN THE FUND

The Fund is subject to a number of risks, as described below, that may affect the value of its shares, including the possible loss of money. As with any fund, there is no guarantee that the Fund will achieve its investment objective.

American Depositary Receipt Risk. ADRs have the same currency and economic risks as the underlying non-U.S. shares they represent. They are affected by the risks associated with non-U.S. securities, such as changes in political or economic conditions of other countries, changes in the exchange rates of, or exchange control regulations associated with, foreign currencies, and differing accounting, auditing, financial reporting and legal standards and practices. In addition, investments in ADRs may be less liquid than the underlying securities in their primary trading market.

Equity Risk. The prices of equity securities rise and fall daily. These price movements may result from factors affecting individual issuers, industries or the stock market as a whole. In addition, equity markets tend to move in cycles, which may cause stock prices to fall over short or extended periods of time.

ETF Market Risk. In stressed market conditions, the market for ETF shares may become less liquid in response to deteriorating liquidity in the markets for the ETF's underlying portfolio holdings. This adverse effect on liquidity for the ETF's shares in turn can lead to differences between the market price of the ETF's shares and the underlying value of those shares.

Management Risk. The Sub-Advisor continuously evaluates the Fund's holdings, purchases and sales with a view to achieving the Fund's investment objective. However, achievement of the stated investment objective cannot be guaranteed. The Sub-Advisor's judgment about the markets, the economy, or companies may not anticipate actual market movements, economic conditions or company performance, and these judgments may affect the return on your investment.

Market Risk. Due to market conditions, the value of the Fund's investments may fluctuate significantly from day to day. Price fluctuations may be temporary or may last for extended periods. This volatility may cause the value of your investment in the Fund to decrease. Local, regional, or global events such as war, acts of terrorism, the spread of infectious illness or other public health issues, recessions, or other events could have a significant impact on the market generally and on specific securities. The market value of a security may also decline because of factors that affect a particular industry or industries, such as labor shortages or increased production costs and competitive conditions within an industry. Because of its link to the markets, an investment in the Fund may be more suitable for long-term investors who can bear the risk of short-term principal fluctuations, which at times may be significant.

Micro-Capitalization Risk. Stock prices of micro-cap companies are significantly more volatile, and more vulnerable to adverse business and economic developments, than those of larger companies. Micro-cap stocks may also be thinly traded, making it difficult for the Fund to buy and sell them.

Portfolio Turnover Risk. The Fund may experience relatively high portfolio turnover, which may result in increased transaction costs and performance that is lower than expected.

Trading Risk. Shares of the Fund may trade above or below their net asset value ("NAV"). The trading price of the Fund's shares may deviate significantly from their NAV during periods of market volatility and, in such instances, you may pay significantly more or receive significantly less than the underlying value of the Fund's shares. There can be no assurance that an active trading market for the Fund's shares will develop or be maintained. In addition, trading in shares of the Fund may be halted because of market conditions or for reasons that, in the view of the NASDAQ Stock Market LLC (the "Exchange"), make trading in shares inadvisable.

FUND PERFORMANCE

The bar chart and table that follow show how the Fund has performed on a calendar year basis and provide an indication of the risks of investing in the Fund. The table also shows how the Fund's performance compares to the Russell Microcap Index, which measures the performance of the microcap segment of the U.S. equity market. Both the bar chart and the table assume the reinvestment of all dividends and distributions. Past performance (before and after taxes) does not necessarily indicate how the Fund will perform in the future.

Updated performance information is available on the Fund's website at www.advisorshares.com.

Calendar Year Total Returns

The Fund's year-to-date total return as of September 30, 2020 was -7.98%.

Best and Worst Quarter Returns (for the period reflected in the bar chart above)

	Return	Quarter/Year
Highest Return	16.36%	1Q/2019
Lowest Return	-8.21%	3Q/2019

AVERAGE ANNUAL TOTAL RETURNS FOR THE PERIOD ENDED DECEMBER 31, 2019

ADVISORSHARES DORSEY WRIGHT MICRO-CAP ETF	1 Year	Since Inception (7/10/2018)
Return Before Taxes Based on NAV	26.44%	-2.43%
Return After Taxes on Distributions	26.40%	-2.45%
Return After Taxes on Distributions and Sale of Fund Shares	15.65%	-1.86%
Russell Microcap Index (reflects no deduction for fees, expenses, or taxes)	22.43%	-4.44%

After-tax returns are calculated using the highest historical individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on your tax situation and may differ from those shown and are not relevant if you hold your shares through tax-advantaged arrangements, such as 401(k) plans or individual retirement accounts. In some cases the return after taxes may exceed the return before taxes due to an assumed tax benefit from any losses on a sale of Fund shares at the end of the measurement period.

MANAGEMENT

Name	Title
AdvisorShares Investments, LLC	Advisor
Dorsey, Wright & Associates, LLC	Sub-Advisor

PORTFOLIO MANAGER

Name and Title	Length of Service with Sub-Advisor
John G. Lewis, Senior Vice President & Senior Portfolio Manager	since June 2002

PURCHASE AND SALE OF FUND SHARES

The Fund issues and redeems shares on a continuous basis at NAV only in a large specified number of shares called a “Creation Unit.” The shares of the Fund that trade on the Exchange are “created” at their NAV by market makers, large investors and institutions only in Creation Units. A “creator” enters into an authorized participant agreement (“Participant Agreement”) with the Fund’s distributor or uses a Depository Trust Company (“DTC”) participant who has executed a Participant Agreement (an “Authorized Participant”), and deposits into the Fund a portfolio of securities closely approximating the holdings of the Fund along with a specified amount of cash.

Individual Fund shares may only be purchased and sold in secondary market transactions through brokers. The shares of the Fund are listed on the Exchange and, because shares trade at market price rather than at NAV, shares may trade at a value greater than (premium) or less than (discount) NAV. When buying or selling shares in the secondary market, you may incur costs attributable to the difference between the highest price a buyer is willing to pay to purchase shares of the Fund (bid) and the lowest price a seller is willing to accept for shares of the Fund (ask) (the “bid-ask spread”). When available, recent information regarding the Fund’s NAV, market price, premiums and discounts, and bid-ask spreads will be available on the Fund’s website at www.advisorshares.com.

TAX INFORMATION

The Fund intends to make distributions that may be taxed as ordinary income, qualified dividend income or capital gains (or a combination thereof), unless you are investing through a tax-advantaged arrangement such as a 401(k) plan or an individual retirement account (“IRA”), which may be taxed upon withdrawal.

PAYMENTS TO BROKER-DEALERS AND OTHER FINANCIAL INTERMEDIARIES

Investors purchasing shares in the secondary market through a brokerage account or with the assistance of a broker may be subject to brokerage commissions and charges. If you purchase Fund shares through a broker-dealer or other financial intermediary (such as a bank), the Fund, the Advisor or the Sub-Advisor may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing broker-dealers or other intermediaries and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary’s website for more information.
