Prospectus dated November 1, 2020

This Prospectus provides important information about the AdvisorShares FolioBeyond Smart Core Bond ETF, a series of AdvisorShares Trust. Before you invest, please read this Prospectus and the Fund's Statement of Additional Information carefully and keep them for future reference.

The shares of the Fund have not been approved or disapproved by the U.S. Securities and Exchange Commission nor has the U.S. Securities and Exchange Commission passed upon the accuracy or adequacy of this Prospectus. Any representation to the contrary is a criminal offense.

Beginning on January 1, 2021, as permitted by regulations adopted by the U.S. Securities and Exchange Commission, paper copies of the Fund's shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the reports from your financial intermediary, such as a broker-dealer or bank. Instead, the reports will be made available on a website, and you will be notified by mail each time a report is posted and provided with a website link to access the report. If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. Please contact your financial intermediary to elect to receive shareholder reports and other communications electronically. You may elect to receive all future reports in paper free of charge. Please contact your financial intermediary to continue receiving paper copies of your shareholder reports and for information about whether your election to receive reports in paper will apply to all funds held with your financial intermediary.

NYSE Arca Ticker: FWDB

FUND SUMMARY

INVESTMENT OBJECTIVE

The AdvisorShares FolioBeyond Smart Core Bond ETF (the “Fund”) seeks investment results that exceed the price and yield performance of its benchmark, the Bloomberg Barclays U.S. Aggregate Bond Index.

FUND FEES AND EXPENSES

This table describes the fees and expenses that you may pay if you buy, hold and sell shares of the Fund. You may pay other fees, such as brokerage commissions when buying or selling shares of the Fund which are not reflected in the table below.

SHAREHOLDER FEES (fees paid directly from your investment)	None
ANNUAL FUND OPERATING EXPENSES (expenses that you pay each year as a percentage of the value of your investment)	
MANAGEMENT FEES	0.50%
DISTRIBUTION (12b-1) FEES	0.00%
OTHER EXPENSES	1.00%
ACQUIRED FUND FEES AND EXPENSES ^(a)	0.32%
TOTAL ANNUAL OPERATING EXPENSES	1.82%
FEE WAIVER/EXPENSE REIMBURSEMENT ^(b)	-0.55%
TOTAL ANNUAL OPERATING EXPENSES AFTER FEE WAIVER/EXPENSE REIMBURSEMENTS	1.27%

(a) Total Annual Operating Expenses and Total Annual Operating Expenses After Fee Waiver/Expense Reimbursements in this fee table may not correlate to the expense ratios in the Fund’s financial highlights (and the Fund’s financial statements) because the financial highlights include only the Fund’s direct operating expenses and do not include Acquired Fund Fees and Expenses, which represent the Fund’s pro rata share of the fees and expenses of the exchange-traded funds in which it invests.

(b) AdvisorShares Investments, LLC (the “Advisor”) has contractually agreed to waive its fees and/or reimburse expenses to keep net expenses (excluding amounts payable pursuant to any plan adopted in accordance with Rule 12b-1, interest expense, taxes, brokerage commissions, acquired fund fees and expenses, other expenditures which are capitalized in accordance with generally accepted accounting principles, and extraordinary expenses) from exceeding 0.95% of the Fund’s average daily net assets for at least one year from the date of this Prospectus. The expense limitation agreement may be terminated without payment of any penalty (i) by the Trust for any reason and at any time and (ii) by the Advisor, for any reason, upon ninety (90) days’ prior written notice to the Trust, such termination to be effective as of the close of business on the last day of the then-current one-year period. If it becomes unnecessary for the Advisor to waive fees or reimburse expenses, the Trust’s Board of Trustees may permit the Advisor to retain the difference between the Fund’s total annual operating expenses and the expense limitation currently in effect, or, if lower, the expense limitation that was in effect at the time of the waiver and/or reimbursement, to recapture all or a portion of its prior fee waivers or expense reimbursements within three years of the date they were waived or reimbursed.

EXAMPLE

This Example is intended to help you compare the cost of investing in the shares of the Fund with the cost of investing in other funds. This Example does not take into account brokerage commissions and other fees to financial intermediaries that you may pay when purchasing or selling shares of the Fund. If these fees were included, your costs would be higher.

The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then sell all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	1 YEAR	3 YEARS	5 YEARS	10 YEARS
AdvisorShares FolioBeyond Smart Core Bond ETF	\$129	\$519	\$934	\$2,092

PORTFOLIO TURNOVER

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in Total Annual Operating Expenses or in the Example, affect the Fund's performance. This rate excludes the value of portfolio securities received or delivered as a result of in-kind creations or redemptions of the Fund's shares. During the most recent fiscal year, the Fund's portfolio turnover rate was 765% of the average value of its portfolio.

PRINCIPAL INVESTMENT STRATEGIES

The Fund is an actively managed exchange-traded fund ("ETF"). AdvisorShares Investments, LLC (the "Advisor") seeks to achieve the Fund's investment objective by selecting a portfolio of fixed income (bond) exchange-traded funds ("Underlying ETFs") and other exchange-traded products, including, but not limited to, exchange-traded notes ("ETNs"), exchange-traded currency trusts, and exchange-traded commodity pools (collectively with Underlying ETFs and ETNs, "ETPs"). Under normal circumstances, the Fund invests in ETPs such that at least 80% of its net assets (plus any borrowings for investment purposes) are invested in bonds. The Fund also may invest in repurchase agreements.

The Advisor selects from among ETPs representing more than 20 distinct global bond classes, including, but not limited to, treasury bonds, municipal bonds, investment grade corporate bonds, high-yield U.S. corporate bonds (sometimes referred to as "junk bonds"), and mortgage-backed securities. The Advisor seeks to invest the Fund's portfolio in securities that provide risk-controlled exposure to multiple bond classes.

The Fund's investment strategy is based on the Advisor's use of automated asset allocation algorithms provided by FolioBeyond that utilize a combination of value measures, momentum factors, correlation effects, and implied volatility levels. Utilizing FolioBeyond's proprietary research, the Advisor proactively adjusts the Fund's asset allocation and sector emphasis in seeking to control the Fund's portfolio risks and optimize portfolio returns. The risk constraints may include volatility targets, sector limits, and stress testing. The Advisor rebalances the Fund's portfolio regularly to keep it within a specified tolerance to the target levels provided by FolioBeyond's guidelines.

PRINCIPAL RISKS OF INVESTING IN THE FUND

The Fund is subject to a number of risks, as described below, that may affect the value of its shares, including the possible loss of money. As with any fund, there is no guarantee that the Fund will achieve its investment objective.

ETF Market Risk. In stressed market conditions, the market for ETF shares may become less liquid in response to deteriorating liquidity in the markets for the ETF's underlying portfolio holdings. This adverse effect on liquidity for the ETF's shares in turn can lead to differences between the market price of the ETF's shares and the underlying value of those shares.

Exchange-Traded Note Risk. ETNs are senior, unsecured unsubordinated debt securities issued by an underwriting bank that are designed to provide returns that are linked to a particular reference asset or benchmark less investor fees. ETNs have a maturity date and generally are backed only by the creditworthiness of the issuer. As a result, the value of an ETN may be influenced by time to maturity, level of supply and demand for the ETN, volatility and lack of liquidity in the underlying market (e.g., the commodities market), changes in the applicable interest rates, and changes in the issuer's credit rating and economic, legal, political or geographic events that affect the underlying market. ETNs also may be subject to commodities market risk and credit risk.

Exchange-Traded Product Risk. Through its investments in ETPs, the Fund is subject to the risks associated with the ETPs' investments or reference assets/benchmark components, including the possibility that the value of the securities or assets held by or linked to an ETP could decrease. These risks include any combination of the risks described below, as well as certain of the other risks described in this section. The Fund's exposure to a particular risk will be proportionate to the Fund's overall allocation and each ETP's asset allocation.

Commodity Risk. The commodities industries can be significantly affected by the level and volatility of commodity prices; world events including international monetary and political developments; import controls and worldwide competition; exploration and production spending; and tax and other government regulations and economic conditions.

Concentration Risk. An ETP may, at various times, concentrate in the securities of a particular industry, group of industries, or sector, and when a fund is over-weighted in an industry, group of industries, or sector, it may be more sensitive to any single economic, business, political, or regulatory occurrence than a fund that is not over-weighted in an industry, group of industries, or sector.

Credit Risk. Certain of the ETPs are subject to the risk that a decline in the credit quality of a portfolio investment or reference asset could cause the ETP's share price to fall. The ETPs could lose money if the issuer or guarantor of a portfolio investment or the counterparty to a derivatives contract fails to make timely principal or interest payments or otherwise honor its obligations.

Emerging Markets Risk. There is an increased risk of price volatility associated with an ETP's investments in, or exposure to, emerging market countries, which may be magnified by currency fluctuations relative to the U.S. dollar.

Fixed Income Securities Risk. An ETP's investments in, or exposure to, fixed income securities are subject to the risk that the securities may be paid off earlier or later than expected. Either situation could cause the ETP to hold securities paying lower- than-market rates of interest, which could hurt the Fund's yield or share price.

Foreign Securities Risk. An ETP's investments in, or exposure to, foreign issuers involve certain risks including, but not limited to, risks of adverse changes in foreign economic, political, regulatory and other conditions, or changes in currency exchange rates or exchange control regulations (including limitations on currency movements and exchanges). In certain countries, legal remedies available to investors may be more limited than those available with respect to investments in the United States. In addition, the securities of some foreign companies may be less liquid and, at times, more volatile than securities of comparable U.S. companies.

High Yield Risk. An ETP may invest in, or be exposed to, high-yield securities and unrated securities of similar credit quality (commonly known as "junk bonds"). High-yield securities generally pay higher yields (greater income) than investment in higher quality securities; however, high-yield securities and junk bonds may be subject to greater levels of interest rate, credit and liquidity risk than funds that do not invest in such securities, and are considered predominantly speculative with respect to an issuer's continuing ability to make principal and interest payments.

Income Risk. An ETP may derive dividend and interest income from certain of its investments. This income can vary widely over the short- and long-term. If prevailing market interest rates drop, distribution rates of an ETP's income producing investments may decline which then may adversely affect the Fund's value.

Interest Rate Risk. An ETP's investments in or exposure to fixed income securities are subject to the risk that interest rates rise and fall over time. As with any investment whose yield reflects current interest rates, an ETP's yield will change over time. During periods when interest rates are low, an ETP's yield (and total return) also may be low. To the extent that the investment advisor or issuer of an ETP anticipates interest rate trends imprecisely, the ETP could miss yield opportunities or its share price could fall.

Mortgage-Backed and Asset-Backed Securities Risk. The impairment of the value of collateral underlying a mortgage-backed or asset-backed security (for example, due to non-payment of loans) may result in a reduction in the value of such security. In addition, early payoffs in the loans may result in an investing ETP receiving less income than originally anticipated.

Illiquid Investments Risk. This risk exists when particular Fund investments are difficult to purchase or sell, which can reduce the Fund's returns because the Fund may be unable to transact at advantageous times or prices.

Management Risk. The Advisor continuously evaluates the Fund's holdings, purchases and sales with a view to achieving the Fund's investment objective. However, achievement of the stated investment objective cannot be guaranteed. The Advisor's judgment about the markets, the economy, or companies may not anticipate actual market movements, economic conditions or company performance, and these factors may affect the return on your investment.

Market Risk. Due to market conditions, the value of the Fund's investments may fluctuate significantly from day to day. Price fluctuations may be temporary or may last for extended periods. This volatility may cause the value of your investment in the Fund to decrease. Local, regional, or global events such as war, acts of terrorism, the spread of infectious illness or other public health issues, recessions, or other events could have a significant impact on the market generally and on specific securities. The market value of a security may also decline because of factors that affect a particular industry or industries, such as labor shortages or increased production costs and competitive conditions within an industry. Because of its link to the markets, an investment in the Fund may be more suitable for long-term investors who can bear the risk of short-term principal fluctuations, which at times may be significant.

Portfolio Turnover Risk. The Fund may experience relatively high portfolio turnover, which may result in increased transaction costs and performance that is lower than expected and potentially greater tax exposure.

Repurchase Agreement Risk. The Fund will be subject to credit risk with respect to the counterparties with which the Fund enters into repurchase agreements, including with respect to recovering or realizing on collateral.

Tax Risk. In order to qualify for the favorable U.S. federal income tax treatment accorded to a regulated investment company ("RIC") under Subchapter M of the Internal Revenue Code of 1986, as amended (the "Internal Revenue Code"), the Fund must, among other requirements described in the SAI, derive at least 90% of its gross income in each taxable year from certain categories of income ("qualifying income") and must satisfy certain asset diversification requirements. Certain of the Fund's investments may generate income that is not qualifying income. If the Fund were to fail to meet the qualifying income test or asset diversification requirements and fail to qualify as a RIC, it would be taxed in the same manner as an ordinary corporation, and distributions to its shareholders would not be deductible by the Fund in computing its taxable income.

Trading Risk. Shares of the Fund may trade above or below their net asset value ("NAV"). The trading price of the Fund's shares may deviate significantly from their NAV during periods of market volatility and, in such instances, you may pay significantly more or receive significantly less than the underlying value of the Fund's shares. There can be no assurance that an active trading market for the Fund's shares will develop or be maintained. In addition, trading in shares of the Fund may be halted because of market conditions or for reasons that, in the view of the NYSE Arca, Inc. (the "Exchange"), make trading in shares inadvisable.

FUND PERFORMANCE

The bar chart and table that follow show how the Fund has performed on a calendar year basis and provide an indication of the risks of investing in the Fund. The table also shows how the Fund's performance compares to the Bloomberg Barclays U.S. Aggregate Bond Index, which measures the performance of the U.S. investment-grade bond market. Both the bar chart and the table assume the reinvestment of all dividends and distributions. Past performance (before and after taxes) does not necessarily indicate how the Fund will perform in the future.

Updated performance information is available on the Fund's website at www.advisorshares.com.

Calendar Year Total Returns

The Fund's year-to-date total return as of September 30, 2020 was -0.43%.

Best and Worst Quarter Returns (for the period reflected in the bar chart above)

	Return	Quarter/Year
Highest Return	5.49%	1Q/2019
Lowest Return	-3.94%	2Q/2013

AVERAGE ANNUAL TOTAL RETURNS FOR THE PERIODS ENDED DECEMBER 31, 2019

	1 Year	5 Year	Since Inception (6/20/2011)
ADVISORSHARES FOLIOBEYOND SMART CORE BOND ETF			
Return Before Taxes Based on NAV	12.78%	4.05%	3.91%
Return After Taxes on Distributions	10.72%	2.57%	2.57%
Return After Taxes on Distributions and Sale of Fund Shares	7.52%	2.47%	2.46%
Bloomberg Barclays U.S. Aggregate Bond Index (reflects no deduction for fees, expenses or taxes)	8.72%	3.05%	3.24%

After-tax returns are calculated using the highest historical individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on your tax situation and may differ from those shown and are not relevant if you hold your shares through tax-advantaged arrangements, such as 401(k) plans or individual retirement accounts. In some cases, the return after taxes on distributions and sale of fund shares may exceed other average annual total returns due to an assumed tax benefit from any losses on a sale of shares at the end of the measurement period.

MANAGEMENT

Name	Title
AdvisorShares Investments, LLC	Advisor

PORTFOLIO MANAGER

Name and Title	Length of Service with the Advisor
Dan S. Ahrens , <i>Managing Director, Chief Operating Officer & Portfolio Manager</i>	since November 2008

PURCHASE AND SALE OF FUND SHARES

The Fund issues and redeems shares on a continuous basis at NAV only in a large specified number of shares called a “Creation Unit.” The shares of the Fund that trade on the Exchange are “created” at their NAV by market makers, large investors and institutions only in Creation Units. A “creator” enters into an authorized participant agreement (“Participant Agreement”) with the Fund’s distributor or uses a Depository Trust Company (“DTC”) participant who has executed a Participant Agreement (an “Authorized Participant”), and deposits into the Fund a portfolio of securities closely approximating the holdings of the Fund along with a specified amount of cash.

Individual Fund shares may only be purchased and sold in secondary market transactions through brokers. The shares of the Fund are listed on the Exchange and, because shares trade at market price rather than at NAV, shares may trade at a value greater than (premium) or less than (discount) NAV. When buying or selling shares in the secondary market, you may incur costs attributable to the difference between the highest price a buyer is willing to pay to purchase shares of the Fund (bid) and the lowest price a seller is willing to accept for shares of the Fund (ask) (the “bid-ask spread”). When available, recent information regarding the Fund’s NAV, market price, premiums and discounts, and bid-ask spreads will be available on the Fund’s website at www.advisorshares.com.

TAX INFORMATION

The Fund intends to make distributions that may be taxed as ordinary income, qualified dividend income or capital gains (or a combination thereof), unless you are investing through a tax-advantaged arrangement such as a 401(k) plan or an individual retirement account (“IRA”), which may be taxed upon withdrawal.

PAYMENTS TO BROKER-DEALERS AND OTHER FINANCIAL INTERMEDIARIES

Investors purchasing shares in the secondary market through a brokerage account or with the assistance of a broker may be subject to brokerage commissions and charges. If you purchase Fund shares through a broker-dealer or other financial intermediary (such as a bank), the Advisor may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing broker-dealers or other intermediaries and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary’s website for more information.

MORE INFORMATION ABOUT THE TRUST AND THE FUND

AdvisorShares Trust (the “Trust”) is a Delaware statutory trust offering a number of professionally managed investment portfolios or funds.

Section 12(d)(1) of the Investment Company Act of 1940 (the “1940 Act”) restricts investments by investment companies in the securities of other investment companies, including shares of the Fund and Underlying ETFs. However, under certain circumstances and subject to certain terms and conditions, registered investment companies may invest in other investment companies (“underlying investment companies”) beyond the limits set forth in Section 12(d)(1). In particular, if an underlying investment company has obtained a Section 12(d)(1) exemptive order from the U.S. Securities and Exchange Commission (the “SEC”), the Fund may enter into an agreement with the underlying investment company pursuant to which the Fund may invest in the underlying investment company beyond the Section 12(d)(1) limits subject to the terms and conditions of the underlying investment company’s exemptive order. The Fund may enter into such agreements with certain Underlying ETFs to permit the Fund to invest in the Underlying ETFs to an unlimited extent.

Creation Units of the Fund are issued and redeemed principally in-kind for portfolio securities along with a specified cash payment.

EXCEPT WHEN AGGREGATED IN CREATION UNITS, SHARES OF THE FUND ARE NOT REDEEMABLE SECURITIES.

MORE INFORMATION ABOUT THE FUND’S INVESTMENT OBJECTIVE

The investment objective of the Fund is non-fundamental and may be changed by the Trust’s Board of Trustees (the “Board”) without a shareholder vote.

MORE INFORMATION ABOUT THE FUND’S PRINCIPAL INVESTMENT STRATEGIES

The Fund is an actively managed ETF and, thus, does not seek to replicate the performance of a specified passive index of securities. Instead, it uses an active investment strategy in seeking to meet its investment objective. The Advisor, subject to the oversight of the Board, has discretion on a daily basis to manage the Fund’s portfolio in accordance with the Fund’s investment objective and investment policies. The Fund will not change the 80% investment policy included in its principal investment strategy without providing 60 days notice to shareholders.

The Fund’s Investment Philosophy

The Fund’s investment strategy is based on the Advisor’s use of automated asset allocation algorithms provided by FolioBeyond. FolioBeyond provides a robust and quantitative allocation strategy covering the global bond markets and is backed by advanced algorithms that leverage decades of experience in asset and risk management, as well as quantitative modelling. FolioBeyond has encapsulated its methods and analytical tools in an optimization framework that produces an efficient way of allocating and rebalancing exposure to the bond markets.

At any given time, the Fund will seek to obtain exposure to various bond classes and geographic regions, as well as differing levels of credit risk and duration.

The bond classes may include, but are not limited to:

- Treasuries
- Inflation Protected Treasuries (TIPS)
- Agency Bonds
- International Developed Markets
- Mortgage Backed Securities (Agency)
- Commercial Mortgage Backed Securities
- Mortgage REITs
- Investment Grade U.S. Corporate

- High-Yield U.S. Corporate
- Bank Loans
- Emerging Market
- Investment Grade Municipal
- High-Yield Municipal

Under normal market conditions, the Fund will purchase shares of or interest in ETPs in the secondary market. When the Fund invests in an ETP (except an ETN), in addition to directly bearing the expenses associated with its own operations, it also will bear a pro rata portion of the ETP's expenses (including operating costs and management fees). Because ETNs are debt securities and not pools of securities, the Fund pays a specific investor fee for its investments in ETNs. Consequently, an investment in the Fund entails more direct and indirect expenses than a direct investment in an ETP.

Investment Process

The Fund's investment strategy utilizes FolioBeyond's models that incorporate multiple proprietary factors to make systematic asset allocations. With a focus on value, forward-looking yields are examined, as opposed to historical returns. Adjustments may be performed to reflect anticipated costs and benefits of embedded options, credit risk, tax effects and inflation forecasts.

The Fund utilizes rigorous risk management that integrates major risk attributes and customizes constraints and estimates return volatility. A combination of implied and historical volatility measures, correlations across all asset classes, and stress testing are used to manage overall risk levels.

MORE INFORMATION ABOUT THE PRINCIPAL RISKS OF INVESTING IN THE FUND

The Fund is subject to a number of risks that may affect the value of its shares. This section provides additional information about the Fund's principal risks. The degree to which a risk applies to the Fund varies according to its investment allocation. Each investor should review the complete description of the principal risks before investing in the Fund. An investment in the Fund may not be appropriate for certain investors. As with investing in other securities whose prices increase and decrease in market value, you may lose money by investing in the Fund.

ETF Market Risk. In stressed market conditions, the market for ETF shares may become less liquid in response to deteriorating liquidity in the markets for the ETF's underlying portfolio holdings. This adverse effect on liquidity for the ETF's shares in turn can lead to a difference between the market price of the ETF's shares and the underlying value of those shares. With respect to the Fund, this difference can be reflected as a spread between the bid and ask prices quoted during the day or a premium or discount in the closing price from the Fund's NAV.

In addition, direct trading by Authorized Participants is critical to ensuring that the Fund's shares trade at or close to NAV. However, market makers are not obligated to make a market in the Fund's shares nor are Authorized Participants obligated to execute purchase or redemption orders for Creation Units and, in times of market stress, circumstances could develop that could cause them to refrain from these activities or reduce their role. Any absence of an active market could lead to a heightened risk of differences between the market price of the Fund's shares and the underlying value of those shares.

Exchange-Traded Note Risk. The value of an ETN may be influenced by time to maturity, level of supply and demand for the ETN, volatility and lack of liquidity in the underlying market, changes in the applicable interest rates, and changes in the issuer's credit rating and economic, legal, political or geographic events that affect the underlying market. It is expected that the issuer's credit rating will be investment-grade at the time of investment, however, the credit rating may be revised or withdrawn at any time and there is no assurance that a credit rating will remain in effect for any given time period. If a rating agency lowers the issuer's credit rating or there is a decline in the perceived creditworthiness of the issuer, the value of the ETN will decline as a lower credit rating reflects a greater risk that the issuer will default on its obligation to ETN investors. The Fund must pay an investor fee when investing in an ETN, which will reduce the amount of return on investment at maturity or upon redemption. There may be restrictions on the Fund's right to redeem its investment in an ETN, which is meant to be held until maturity. There are no periodic interest payments for ETNs and principal typically is not protected. As is the case with other ETPs, an investor could lose some of or the entire amount invested in ETNs. The Fund's decision to sell its ETN holdings may be limited by the availability of a secondary market.

Illiquid Investments Risk. In certain circumstances, it may be difficult for the Fund to purchase and sell particular portfolio investments due to infrequent trading in such investments. The prices of such securities may experience significant volatility, make it more difficult for the Fund to transact significant amounts of such securities without an unfavorable impact on prevailing market prices, or make it difficult for the Advisor to dispose of such securities at a fair price at the time the Advisor believes it is desirable to do so. In addition, the Fund's investments in certain ETPs, if any, may be subject to restrictions on the amount and timing of any redemptions. The Fund's investments in such securities may restrict the Fund's ability to take advantage of other market opportunities and adversely affect the value of the Fund's portfolio holdings. The Fund's investments also may be subject to trading halts caused by extraordinary market volatility pursuant to "circuit breaker" rules.

Management Risk. The Advisor continuously evaluates the Fund's holdings, purchases and sales with a view to achieving the Fund's investment objective. However, achievement of the stated investment objective cannot be guaranteed. The Advisor's judgment about the markets, the economy, or companies may not anticipate actual market movements, economic conditions or company performance, and these factors may affect the return on your investment. In fact, no matter how good a job the Advisor does, you could lose money on your investment in the Fund, just as you could with other investments. If the Advisor is incorrect in its assessment of the income, growth or price realization potential of the Fund's holdings or incorrect in its assessment of general market or economic conditions, then the value of the Fund's shares may decline.

Market Risk. Investments in securities, in general, are subject to market risks that may cause their prices to fluctuate over time. The Fund's and an ETP's investments may decline in value due to factors affecting securities markets generally, such as real or perceived adverse economic conditions or changes in interest or currency rates, or particular countries, segments, economic sectors, industries or companies within those markets. Local, regional, or global events such as war, acts of terrorism, the spread of infectious illness or other public health issues, recessions, or other events could have a significant impact on the market generally and on specific securities. For example, since December 2019, a novel strain of coronavirus has spread globally, which has resulted in the temporary closure of many corporate offices, retail stores, manufacturing facilities and factories, and other businesses across the world. As the extent of the impact on global markets from the coronavirus is difficult to predict, the extent to which the coronavirus may negatively affect the Fund's performance or the duration of any potential business disruption is uncertain. Any potential impact on performance will depend to a large extent on future developments and new information that may emerge regarding the duration and severity of the coronavirus and the actions taken by authorities and other entities to contain the coronavirus or treat its impact.

Changes in market conditions and interest rates generally do not have the same impact on all types of securities and instruments. Fluctuations in the value of securities and financial instruments in which the Fund or an ETP invests will cause the NAV of the Fund or the ETP to fluctuate. Historically, the markets have moved in cycles, and the value of the Fund's and an ETP's securities or reference asset may fluctuate drastically from day to day. Because of its link to the markets, an investment in the Fund may be more suitable for long-term investors who can bear the risk of short-term principal fluctuations, which at times may be significant.

Portfolio Turnover Risk. The Fund's strategy may frequently involve buying and selling securities, which may lead to relatively high portfolio turnover. Higher portfolio turnover may result in the Fund paying increased transaction costs and generating greater tax liabilities for shareholders. Portfolio turnover also may cause the Fund's performance to be lower than expected.

Repurchase Agreement Risk. The Fund will be subject to credit risk with respect to the counterparties with which the Fund enters into repurchase agreements. If a counterparty fails to meet its contractual obligations, the Fund may be unable to terminate or realize any gain on the transaction, or to recover collateral posted to the counterparty, resulting in a loss to the Fund. If the Fund holds collateral posted by its counterparty, it may be delayed or prevented from realizing on the collateral in the event of a bankruptcy or insolvency proceeding relating to the counterparty. Due to the limited number of banks handling clearing and settlement of certain repurchase agreements, parties entering into repurchase agreement transactions also could have increased exposure to risks associated with cyberattacks.

Tax Risk. In order to qualify for the favorable U.S. federal income tax treatment accorded to a RIC under Subchapter M of the Internal Revenue Code, the Fund must, among other requirements described in the Fund's SAI, derive at least 90% of its gross income in each taxable year from certain categories of income ("qualifying income"). The Fund's investments in ETPs are generally expected to generate qualifying income. Certain of the Fund's investments, however, may generate income that is not qualifying income. The Fund might generate more non-qualifying income than anticipated, might not be able to generate qualifying income in a particular taxable year at levels sufficient to meet the qualifying income test, or might not be able to determine the percentage of qualifying income it derives for a taxable year until after year-end. In addition, the Fund must satisfy a quarterly asset diversification test. If the Fund were to fail to meet the qualifying income test or the asset diversification test and fail to qualify as a RIC, it would be taxed in the same manner as an ordinary corporation, and distributions to its shareholders would not be deductible by the Fund in computing its taxable income. Under certain circumstances, the Fund may be able to cure a failure to meet the qualifying income test or the asset diversification test if such failure was due to reasonable cause and not willful neglect, but in order to do so the Fund may incur significant fund-level taxes, which would effectively reduce (and could eliminate) the Fund's returns.

Trading Risk. Shares of the Fund may trade above or below their NAV. The NAV of shares will fluctuate with changes in the market value of the Fund's holdings. The trading prices of shares will fluctuate in accordance with changes in NAV, as well as market supply and demand. When the market price of the Fund's shares deviates significantly from NAV, you may pay significantly more or receive significantly less than the underlying value of the Fund's shares. However, given that shares can be created and redeemed only in Creation Units at NAV, the Advisor does not believe that large discounts or premiums to NAV will exist for extended periods of time. Although the Fund's shares are currently listed on the Exchange, there can be no assurance that an active trading market for shares will develop or be maintained. In addition, trading in shares of the Fund may be halted because of market conditions or for reasons that, in the view of the Exchange, make trading in shares inadvisable.

OVERVIEW OF THE PRINCIPAL RISKS OF ETPs

The value of your investment in the Fund is based primarily on the prices of the ETPs that the Fund purchases. In turn, the price of each ETP is based on the value of its securities or reference assets/benchmark components. The prices of these securities or reference assets change daily and each ETP's performance reflects the risks of investing in a particular asset class or classes. ETPs also may trade below their NAV or at a discount, which may adversely affect the Fund's performance. An overview of certain of the principal risks of the ETPs is provided below. ETPs also may be subject to certain of the risks described above. The degree to which the risks described below apply to the Fund varies according to its asset allocation. A complete list of each ETP in which the Fund invests can be found daily on the Trust's website. Each investor should review the complete description of the principal risks of the ETPs prior to investing in the Fund.

Concentration Risk. An ETP may, at various times, concentrate in the securities of a particular industry, group of industries, or sector, and when a fund is over-weighted in an industry, group of industries, or sector, it may be more sensitive to any single economic, business, political, or regulatory occurrence than a fund that is not over-weighted in an industry, group of industries, or sector.

Credit Risk. Certain of the ETPs are subject to the risk that a decline in the credit quality of a portfolio investment or reference asset could cause the ETPs' share price to fall. The ETPs could lose money if the issuer or guarantor of a portfolio investment or the counterparty to a derivatives contract fails to make timely principal or interest payments or otherwise honor its obligations. Below investment-grade bonds (junk bonds) involve greater risks of default or downgrade and are more volatile than investment-grade bonds. Below investment-grade bonds also involve greater risk of price declines than investment-grade securities due to actual or perceived changes in an issuer's creditworthiness. In addition, issuers of below investment-grade bonds may be more susceptible than other issuers to economic downturns. Such bonds are subject to the risk that the issuer may not be able to pay interest or dividends and ultimately to repay principal upon maturity. Discontinuation of these payments could substantially adversely affect the market value of the bonds.

Emerging Markets Risk. An ETP's investments in or exposure to emerging markets may be more likely to experience political turmoil or rapid changes in market or economic conditions than more developed countries. Emerging market countries often have less uniformity in accounting and reporting requirements and unreliable securities valuation. It is sometimes difficult to obtain and enforce court judgments in such countries and there is often a greater potential for nationalization and/or expropriation of assets by the government of an emerging market country. In addition, the financial stability of issuers (including governments) in emerging market countries may be more precarious than in other countries. As a result, there will tend to be an increased risk of price volatility associated with an ETP's investments in emerging market countries, which may be magnified by currency fluctuations relative to the U.S. dollar.

Fixed Income Securities Risk. An ETP's investments in, or exposure to, fixed income securities are subject to the risk that the securities may be paid off earlier or later than expected. Either situation could cause the ETP to hold securities paying lower-than-market rates of interest, which could hurt the fund's yield or share price. In addition, rising interest rates tend to extend the duration of certain fixed income securities, making them more sensitive to changes in interest rates. As a result, in a period of rising interest rates, an ETP that holds these securities may exhibit additional volatility. This is known as extension risk. When interest rates decline, borrowers may pay off their fixed income securities sooner than expected. This can reduce the returns of an ETP because it will have to reinvest that money at the lower prevailing interest rates. This is known as prepayment risk.

Foreign Securities Risk. An ETP's investments in or exposure to securities of foreign issuers involve certain risks that are greater than those associated with investments in securities of U.S. issuers. These include risks of adverse changes in foreign economic, political, regulatory and other conditions, or changes in currency exchange rates or exchange control regulations (including limitations on currency movements and exchanges). In certain countries, legal remedies available to investors may be more limited than those available with respect to investments in the United States. The securities of some foreign companies may be less liquid and, at times, more volatile than securities of comparable U.S. companies. An ETP with exposure to foreign investments may also experience more rapid or extreme changes in value than a fund that invests solely in securities of U.S. companies because the securities markets of many foreign countries are relatively small, with a limited number of companies representing a small number of industries. Foreign withholding taxes may be imposed on income earned by an ETP's investment in or exposure to foreign securities, which may reduce the return on such investments. There also is a risk that the cost of buying, selling, and holding foreign securities, including brokerage, tax, and custody costs, may be higher than those involved in domestic transactions.

High-Yield Risk. An ETP may invest in, or have exposure to, high-yield securities and unrated securities of similar credit quality (commonly known as "junk bonds"). High-yield securities generally pay higher yields (greater income) than investment in higher quality securities; however, high-yield securities and junk bonds may be subject to greater levels of interest rate, credit and liquidity risk than funds that do not invest in such securities, and are considered predominantly speculative with respect to an issuer's continuing ability to make principal and interest payments. The value of these securities often fluctuates in response to company, political or economic developments and declines significantly over short periods of time or during periods of general economic difficulty. An economic downturn or period of rising interest rates could adversely affect the market for these securities and reduce the ability of certain of the underlying funds to sell these securities (liquidity risk). These securities can also be thinly traded or have restrictions on resale, making them difficult to sell at an acceptable price. If the issuer of a security is in default with respect to interest or principal payments, the ETP may lose its entire investment.

Income Risk. An ETP may derive dividend and interest income from certain of its investments. This income can vary widely over the short- and long-term. If prevailing market interest rates drop, distribution rates of an ETP's income producing investments may decline which then may adversely affect its value. The dividend and interest income produced by certain of the ETP's portfolio holdings or reference assets also may be adversely affected by the particular circumstances and performance of the individual issuers of such investments.

Interest Rate Risk. An ETP's investments in, or exposure to, fixed income securities are subject to the risk that interest rates rise and fall over time. As with any investment whose yield reflects current interest rates, an ETP's yield will change over time. During periods when interest rates are low, an ETP's yield (and total return) also may be low. Changes in interest rates also may affect an ETP's share price: a sharp rise in interest rates could cause its share price to fall. This risk is greater when the ETP holds bonds with longer maturities. To the extent that the investment advisor or issuer of an ETP or the issuer of an Underlying ETP anticipates interest rate trends imprecisely, the ETP could miss yield opportunities or its share price could fall.

Mortgage-Backed and Asset-Backed Securities Risk. The impairment of the value of collateral underlying a mortgage-backed or asset-backed security (for example, due to non-payment of loans) may result in a reduction in the value of such security. Early payoffs in the loans underlying such securities may result in investing ETP receiving less income than originally anticipated. The variability in prepayments will tend to limit price gains when interest rates drop and exaggerate price declines when interest rates rise. In the event of high prepayments, an investing ETP may be required to invest proceeds at lower interest rates, causing the ETP to earn less than if the prepayments had not occurred. Conversely, rising interest rates may cause prepayments to occur at a slower than expected rate, which may effectively change a security that was considered short- or intermediate-term into a long-term security. Long-term securities tend to fluctuate in value more widely in response to changes in interest rates than shorter-term securities.

OTHER INVESTMENT PRACTICES AND STRATEGIES

Temporary Defensive Positions. To respond to adverse market, economic, political or other conditions, the Fund may invest up to 100% of its total assets, without limitation in high-quality debt securities and money market instruments. The Fund may be invested in this manner for extended periods, depending on the Advisor's assessment of market conditions. Debt securities and money market instruments include shares of other mutual funds, commercial paper, certificates of deposit, bankers' acceptances, U.S. government securities, repurchase agreements, and bonds that are rated BBB or higher. While the Fund is in a defensive position, the Fund may not achieve its investment objective. Furthermore, to the extent that the Fund invests in money market funds, the Fund would bear its pro rata portion of each such money market fund's advisory fees and operational expenses.

Lending of Portfolio Securities. The Fund may lend portfolio securities to brokers, dealers and other financial organizations that meet capital and other credit requirements or other criteria established by the Fund's Board. These loans, if and when made, may not exceed 33 $\frac{1}{3}$ % of the total asset value of the Fund (including the loan collateral). Such loans may be terminated at any time. Any such loans must be continuously secured by collateral maintained on a current basis in an amount at least equal to the market value of the securities loaned by the Fund. In a loan transaction, as compensation for lending its securities, the Fund will receive a portion of the dividends or interest accrued on the securities held as collateral or, in the case of cash collateral, a portion of the income from the investment of such cash. In addition, the Fund will receive the amount of all dividends, interest and other distributions on the loaned securities. However, the borrower has the right to vote the loaned securities. The Fund will call loans to vote proxies if a material issue affecting the investment is to be voted upon. Loans are made only to borrowers that are deemed by the securities lending agent to be of good financial standing. Should the borrower of the securities fail financially, the Fund may experience delays in recovering the securities or exercising its rights in the collateral. In a loan transaction, the Fund will also bear the risk of any decline in value of securities acquired with cash collateral. The Fund will attempt to minimize this risk by limiting the investment of cash collateral to high quality instruments of short maturity.

Please see the Fund's Statement of Additional Information ("SAI") for a more complete list of portfolio investment strategies, permitted investments and related risks.

PORTFOLIO HOLDINGS

A description of the Fund's policies and procedures with respect to the disclosure of Fund portfolio securities is available (i) in the SAI and (ii) on the Trust's website at www.advisorshares.com. The Fund's daily portfolio holdings information also is available on the Trust's website.

MANAGEMENT OF THE FUND

INVESTMENT ADVISOR

AdvisorShares Investments, LLC, located at 4800 Montgomery Lane, Suite 150, Bethesda, Maryland 20814, serves as investment advisor of the Fund. As of September 30, 2020, the Advisor had approximately \$868 million in assets under management.

The Advisor, subject to the supervision of the Board, provides an investment management program for the Fund and manages the investment of the Fund's assets. Pursuant to an investment advisory agreement between the Trust and the Advisor, the Advisor is entitled to receive an annual advisory fee of 0.50% based on the average daily net assets of the Fund. For the most recent fiscal year, the Fund paid the Advisor 0% after waivers based on its average daily net assets.

The Advisor bears all of its own costs associated with providing these advisory services and the expenses of the members of the Board who are affiliated with the Advisor. The Advisor may make payments from its own resources to broker-dealers and other financial institutions in connection with the sale of Fund shares.

The Advisor has contractually agreed to waive its fees and/or reimburse expenses in order to keep net expenses (excluding amounts payable pursuant to any plan adopted in accordance with Rule 12b-1, interest expense, taxes, brokerage commissions, acquired fund fees and expenses, other expenditures which are capitalized in accordance with generally accepted accounting principles, and extraordinary expenses) from exceeding 0.95% of the Fund's average daily net assets for at least one year from the date of this Prospectus. The expense limitation agreement may be terminated without payment of any penalty (i) by the Trust for any reason and at any time and (ii) by the Advisor, for any reason, upon ninety (90) days' prior written notice to the Trust, such termination to be effective as of the close of business on the last day of the then-current one-year period. If at any point it becomes unnecessary for the Advisor to waive fees or reimburse expenses, the Board may permit the Advisor to retain the difference between the Fund's total annual operating expenses and the expense limitation currently in effect, or, if lower, the expense limitation that was in effect at the time of the waiver and/or reimbursement, to recapture all or a portion of its prior fee waivers or expense reimbursements within three years of the date they were waived or reimbursed.

The Advisor may hire one or more sub-advisors to oversee the day-to-day portfolio management activities of the Fund. The sub-advisors would be subject to oversight by the Advisor. Pursuant to an exemptive order from the SEC, the Advisor, subject to certain conditions, has the right, without shareholder approval, to hire a new unaffiliated sub-advisor or materially amend the terms of a sub-advisory agreement with an unaffiliated sub-advisor when the Board and the Advisor believe that a change would benefit the Fund. The Prospectus will be supplemented when there is a significant change in the Fund's sub-advisory arrangement.

A discussion regarding the basis for the Board's most recent approval of the Fund's investment advisory agreement is available in the Trust's Annual Report to Shareholders dated June 30, 2020.

PORTFOLIO MANAGER

The following portfolio manager is primarily responsible for the day-to-day management of the Fund.

Dan S. Ahrens, *Managing Director, Chief Operating Officer & Portfolio Manager*

Dan Ahrens is a Managing Director and the Chief Operating Officer of the Advisor. Prior to joining the Advisor in 2008, Mr. Ahrens founded Ahrens Advisors, L.P., an SEC-registered investment advisor, where he was portfolio manager of the Ladenburg Thalmann Gaming and Casino Fund from 2006 to 2008. Before forming Ahrens Advisors, he was President of the MUTUALS.com Funds. He served as portfolio manager of the Vice Fund (VICEX), which he started in 2002, and the Generation Wave Growth Fund. During that time, he also was President and Chief Compliance Officer of Mutuals Advisors, Inc. and acted as President, Treasurer and Financial & Operations Officer of an affiliated Broker Dealer firm. He is the author of *Investing in Vice* (St. Martin's Press, 2004) and has appeared on numerous financial programs, including CNBC, CNN, ABC News and Bloomberg, to discuss "Vice Stocks." He has been featured, along with funds under his management, in major national and trade publications including The Economist, New York Times, Financial Times, and The Wall Street Journal. He earned a Bachelor in Business Administration in Finance from Texas Tech University.

Additional information about the portfolio manager's compensation, other accounts managed by the portfolio manager, and the portfolio manager's ownership of securities in the Fund is available in the SAI.

OTHER SERVICE PROVIDERS

Foreside Fund Services, LLC (the "Distributor") is the principal underwriter and distributor of the Fund's shares. The Distributor's principal address is Three Canal Plaza, Suite 100, Portland, Maine 04101. The Distributor will not distribute shares in less than whole Creation Units, and it does not maintain a secondary market in the shares. The Distributor is a broker-dealer registered under the Securities Exchange Act of 1934 and a member of the Financial Industry Regulatory Authority, Inc. ("FINRA"). The Distributor is not affiliated with the Advisor, The Bank of New York Mellon or any of their respective affiliates.

The Bank of New York Mellon, located at 240 Greenwich Street, New York, New York 10286, serves as the administrator, custodian, transfer agent and fund accounting agent for the Fund.

Morgan, Lewis & Bockius LLP, located at 1111 Pennsylvania Avenue, N.W., Washington, D.C. 20004, serves as legal counsel to the Trust.

Tait, Weller & Baker LLP, located at Two Liberty Place, 50 South 16th Street, Suite 2900, Philadelphia, Pennsylvania 19102, serves as the Fund's independent registered public accounting firm. The independent registered public accounting firm is responsible for auditing the annual financial statements of the Fund.

SHAREHOLDER INFORMATION

CALCULATING NET ASSET VALUE

The Fund calculates NAV by (i) taking the current market value of its total assets, (ii) subtracting any liabilities, and (iii) dividing that amount by the total number of shares owned by shareholders.

The Fund calculates NAV once each business day as of the regularly scheduled close of normal trading on the New York Stock Exchange, LLC (the "NYSE") (normally 4:00 p.m. Eastern Time). The NYSE is typically closed on weekends and most national holidays.

In calculating NAV, the Fund generally values its portfolio investments at market prices. If market prices are unavailable or the Fund thinks that they are unreliable, or when the value of a security has been materially affected by events occurring after the relevant market closes, the Fund will price those securities at fair value as determined in good faith using methods approved by the Board. With respect to investments in U.S.-traded securities with readily available pricing, it is expected that there would be limited circumstances in which the Fund would use fair value pricing – for example, if the exchange on which a portfolio security is principally traded closed early or if trading in a particular security was halted during the day and did not resume prior to the time the Fund calculated its NAV.

The use of fair valuation in pricing a security involves the consideration of a number of subjective factors and, therefore, is susceptible to the unavoidable risk that the valuation may be higher or lower than the price at which the security might actually trade if a reliable market price were readily available.

More information about the valuation of the Fund's holdings can be found in the SAI.

PREMIUM/DISCOUNT INFORMATION

The price of the Fund's shares is based on market price, which may differ from the Fund's daily NAV per share and can be affected by market forces of supply and demand, economic conditions and other factors. Information showing the number of days that the market price of the Fund's shares was greater than the Fund's NAV per share (*i.e.*, at a premium) and the number of days it was less than the Fund's NAV per share (*i.e.*, at a discount) for various time periods is available by visiting the Fund's website at www.advisorshares.com.

DIVIDENDS AND DISTRIBUTIONS

The Fund pays out dividends and distributes its net capital gains, if any, to shareholders at least annually.

ACTIVE INVESTORS AND MARKET TIMING

Shares of the Fund are listed for trading on the Exchange, which allows retail investors to purchase and sell individual shares at market prices throughout the trading day similar to other publicly traded securities. Because these secondary market trades do not involve the Fund directly, it is unlikely that secondary market trading would cause any harmful effects of market timing, such as dilution, disruption of portfolio management, increases in the Fund's trading costs or realization of capital gains. The Board has determined not to adopt policies and procedures designed to prevent or monitor for frequent purchases and redemptions of the Fund's shares because the Fund sells and redeems its shares at NAV only in Creation Units pursuant to the terms of a Participant Agreement between the Distributor and an Authorized Participant, principally in exchange for a basket of securities that mirrors the composition of the Fund's portfolio and a specified amount of cash. The Fund also imposes transaction fees on such Creation Unit transactions that are designed to offset the Fund's transfer and other transaction costs associated with the issuance and redemption of the Creation Unit shares.

BOOK-ENTRY

Shares of the Fund are held in book-entry form, which means that no stock certificates are issued. DTC, or its nominee, is the record owner of all outstanding shares of the Fund and is recognized as the owner of all shares.

Investors owning shares of the Fund are beneficial owners as shown on the records of DTC or its participants. DTC serves as the securities depository for all shares. Participants in DTC include securities brokers and dealers, banks, trust companies, clearing corporations and other institutions that directly or indirectly maintain a custodial relationship with DTC. As a beneficial owner of shares, you are not entitled to receive physical delivery of stock certificates or to have shares registered in your name, and you are not considered a registered owner of shares. Therefore, to exercise any right as an owner of shares, you must rely upon the procedures of DTC and its participants (*e.g.*, broker-dealers, banks, trust companies, or clearing companies). These procedures are the same as those that apply to any stocks that you hold in book entry or "street name" through your brokerage account.

INVESTING IN THE FUND

For more information on how to buy and sell shares of the Fund, call the Trust at 877.843.3831 or visit the Fund's website at www.advisorshares.com.

DISTRIBUTION PLAN

The Fund has adopted a Distribution Plan pursuant to Rule 12b-1 under the Investment Company Act of 1940 that allows the Fund to pay distribution fees to the Distributor and other firms that provide distribution services. The Fund will pay distribution fees to the Distributor at an annual rate not to exceed 0.25% of its average daily net assets. If a service provider provides distribution services, the Distributor will pay the service provider out of its distribution fees.

No distribution fees are currently charged to the Fund; there are no plans to impose distribution fees, and no distribution fees will be charged for at least one year from the date of this Prospectus. However, to the extent distribution fees are charged in the future, because the Fund would pay these fees out of assets on an ongoing basis, over time these fees may cost you more than other types of sales charges and would increase the cost of your investment. At such time as distribution fees are charged, the Fund will notify investors by adding disclosure to the Fund's website and in the Fund's Prospectus. Any distribution fees will be approved by the Board.

ADDITIONAL TAX INFORMATION

The following is a summary of some important tax issues that affect the Fund and its shareholders. The summary is based on current tax law, which may be changed by legislative, judicial or administrative action. The summary is very general, and does not address investors subject to special rules, such as investors who hold shares through an IRA, 401(k) or other tax-advantaged account. More information about taxes is located in the SAI.

You are urged to consult your tax advisor regarding specific questions as to U.S. federal, state and local income taxes.

Tax Status of the Fund

The Fund is treated as a separate entity for U.S. federal income tax purposes and intends to qualify for the special tax treatment afforded to a regulated investment company (“RIC”) under the Internal Revenue Code. As long as the Fund qualifies for treatment as a RIC, it pays no federal income tax on the earnings it timely distributes to shareholders. However, the Fund’s failure to qualify as a RIC or to meet minimum distribution requirements would result (if certain relief provisions were not available) in fund-level taxation and, consequently, a reduction in income available for distribution to shareholders.

Unless you are a tax-exempt entity or your investment in Fund shares is made through a tax-deferred retirement account, such as an individual retirement account, you need to be aware of the possible tax consequences when:

- the Fund makes distributions;
- you sell Fund shares; and
- you purchase or redeem Creation Units (institutional investors only).

Tax Status of Distributions

- The Fund intends to distribute, at least annually, substantially all of its net investment income and net capital gains income.
- The income dividends you receive from the Fund will be taxed as either ordinary income or “qualified dividend income.” For non-corporate shareholders, dividends reported by the Fund as qualified dividend income are generally eligible for reduced tax rates applicable to long-term capital gains, provided holding period and other requirements are met. Qualified dividend income generally is income derived from dividends paid by U.S. corporations or certain foreign corporations. In general, dividends received by the Fund from an ETP taxable as a RIC may be distributed and reported as qualified dividend income by the Fund to the extent the dividend distributions distributed and reported as qualified dividend income by the ETP. Certain of the Fund’s investment strategies may significantly limit its ability to report distributions as qualified dividend income.
- Corporate shareholders may be entitled to a dividends-received deduction for the portion of dividends they receive that are attributable to dividends received by the Fund (directly or in some cases indirectly) from U.S. corporations, subject to certain limitations. Certain of the Fund’s investment strategies may significantly limit its ability to report distributions as eligible for the dividends received deduction.
- Distributions from the Fund’s short-term capital gains are generally taxable as ordinary income. Any distributions of net capital gain (the excess of the Fund’s net long-term capital gains over its net short-term capital losses) that you receive from the Fund generally are taxable as long-term capital gains regardless of how long you have owned your shares. Long-term capital gains are taxed to non-corporate shareholders at reduced tax rates.
- Dividends and distributions are generally taxable to you whether you receive them in cash or reinvest them in additional shares.
- Distributions paid in January but declared by the Fund in October, November or December of the previous year may be taxable to you in the previous year.

- Shortly after the close of each calendar year, the Fund (or your broker) will inform you of the amount of your ordinary income dividends, qualified dividend income, foreign tax credits, and net capital gain distributions received from the Fund.
- You may wish to avoid investing in the Fund shortly before a dividend or other distribution, because such a distribution will generally be taxable even though it may economically represent a return of a portion of your investment.

Taxes on Exchange-Listed Share Sales

Any capital gain or loss realized upon a sale of shares is generally treated as long-term capital gain or loss if the shares have been held for more than one year and as short-term capital gain or loss if the shares have been held for one year or less, except that any capital loss on the sale of shares held for six months or less is treated as long-term capital loss to the extent of amounts treated as distributions of long-term capital gains to the shareholder with respect to such shares.

Derivatives and Complex Securities

ETPs in which the Fund invests may invest in complex securities. These investments may be subject to numerous special and complex tax rules. These rules could affect the Fund's or the ETPs in which the Fund invests that are taxed as RICs ability to qualify as a RIC, affect whether gains and losses recognized by the Fund or the ETPs are treated as ordinary income or loss or capital gain or loss, accelerate the recognition of income to the Fund or the ETPs, cause income or gain to be recognized even though corresponding cash is not received by the Fund or the ETPs and/or defer the Fund's, or the ETPs' ability to recognize losses. In turn, those rules may affect the Fund. Additional information regarding the Fund's and the ETPs' investments in complex securities can be found in the Fund's SAI.

Investment in Foreign Securities

The Fund and the ETPs in which it invests may be subject to withholding and other taxes imposed by foreign countries on dividends, interest, and other income they may earn from investing in foreign securities, which may reduce the return on such investments. The U.S. has entered into tax treaties with certain foreign countries that may entitle the Fund or the ETPs in which it invests to a reduced rate of, or exemption from, foreign taxes on certain income. The Fund may need to file special claims for refunds to secure the benefits of a reduced rate. The effective rate of foreign tax cannot be determined in advance because the amount of the Fund's assets to be invested within various countries is not known. In addition, investments by the Fund or the ETPs in foreign currencies may increase or accelerate the Fund's recognition of ordinary income and may affect the timing or amount of the Fund's distributions. If as of the close of a taxable year more than 50% of the total assets of the Fund consist of stock or securities of foreign corporations then the Fund may elect to "pass through" to investors the amount of foreign income and similar taxes (including withholding taxes) paid by the Fund during that taxable year. If the Fund elects to "pass through" such foreign taxes, then investors will be considered to have received as additional income their respective shares of such foreign taxes, but may be entitled to either a corresponding tax deduction in calculating taxable income, or, subject to certain limitations, a credit in calculating federal income tax.

Foreign tax credits, if any, received by the Fund as a result of an investment in another RIC (including an ETF which is taxable as a RIC) will not be passed through to you unless the Fund qualifies as a "qualified fund-of-funds" under the Internal Revenue Code. If the Fund is a "qualified fund-of-funds" it will be eligible to file an election with the IRS that will enable the Fund to pass along these foreign tax credits to its shareholders. The Fund will be treated as a "qualified fund-of-funds" under the Internal Revenue Code if at least 50% of the value of the Fund's total assets (at the close of each quarter of the Fund's taxable year) is represented by interests in other RICs.

Medicare Tax

U.S. individuals with income exceeding certain thresholds are subject to a 3.8% Medicare contribution tax on all or a portion of their "net investment income," including interest, dividends (but not any exempt-interest dividends), and certain capital gains (generally including capital gain distributions and capital gains realized on the sale or exchange of shares). This 3.8% tax also applies to all or a portion of the undistributed net investment income of certain shareholders that are estates and trusts.

Non-U.S. Investors

If you are not a citizen or permanent resident of the United States, the Fund's ordinary income dividends will generally be subject to a 30% U.S. withholding tax, unless a lower treaty rate applies or unless such income is effectively connected with a U.S. trade or business. The 30% withholding tax generally will not apply to distributions of net capital gain. The Fund may, under certain circumstances, report all or a portion of a dividend as an "interest-related dividend" or a "short-term capital gain dividend," which would generally be exempt from this 30% U.S. withholding tax, provided certain other requirements are met. Short-term capital gain dividends received by a nonresident alien individual who is present in the U.S. for a period or periods aggregating 183 days or more during the taxable year are not exempt from this 30% withholding tax.

Backup Withholding

The Fund will be required in certain cases to withhold (as "backup withholding") on amounts payable to any shareholder who (1) has provided the Fund either an incorrect tax identification number or no number at all, (2) is subject to backup withholding by the Internal Revenue Service for failure to properly report payments of interest or dividends, (3) has failed to certify to the Fund that such shareholder is not subject to backup withholding, or (4) has not certified that such shareholder is a U.S. person (including a U.S. resident alien). The backup withholding rate is 24%. Backup withholding will not, however, be applied to payments that have been subject to the 30% withholding tax applicable to shareholders who are neither citizens nor residents of the United States.

Taxes on Creation and Redemption of Creation Units

An Authorized Participant who purchases a Creation Unit by exchanging securities in-kind generally will recognize a gain or loss equal to the difference between (a) the sum of the market value of the Creation Units at the time and any net cash received, and (b) the sum of the purchaser's aggregate basis in the securities surrendered and any net cash paid for the Creation Units. An Authorized Participant who redeems Creation Units will generally recognize a gain or loss equal to the difference between (x) the sum of the redeemer's basis in the Creation Units and any net cash paid, and (y) the sum of the aggregate market value of the securities received and any net cash received. The Internal Revenue Service, however, may assert that a loss that is realized upon an exchange of securities for Creation Units may not be currently deducted under the rules governing "wash sales" by an Authorized Participant that does not mark-to-market its holdings, or on the basis that there has been no significant change in economic position.

The Fund has the right to reject an order for Creation Units if the purchaser (or a group of purchasers) would, upon obtaining the shares so ordered, own 80% or more of the outstanding shares of the Fund and if, pursuant to section 351 of the Internal Revenue Code, the Fund would have a basis in the deposit securities different from the market value of such securities on the date of deposit. The Fund also has the right to require information necessary to determine beneficial share ownership for purposes of the 80% determination. If the Fund does issue Creation Units to a purchaser (or a group of purchasers) that would, upon obtaining the Creation Units so ordered, own 80% or more of the outstanding shares of the Fund, the purchaser (or a group of purchasers) will not recognize gain or loss upon the exchange of securities for Creation Units.

The Fund may include cash when paying the redemption price for Creation Units in addition to, or in place of, the delivery of a basket of securities. The Fund may be required to sell portfolio securities in order to obtain the cash needed to distribute redemption proceeds. This may cause the Fund to recognize investment income and/or capital gains or losses that it might not have recognized if it had completely satisfied the redemption in-kind. As a result, the Fund may be less tax efficient if it includes such a cash payment than if the in-kind redemption process was used.

Persons exchanging securities or non-U.S. currency for Creation Units should consult their own tax advisors with respect to the tax treatment of any creation or redemption transaction. If you purchase or redeem Creation Units, you will be sent a confirmation statement showing how many Fund shares you purchased or redeemed and at what price.

The foregoing discussion summarizes some of the consequences under current federal tax law of an investment in the Fund. It is not a substitute for personal tax advice. Consult your personal tax advisor about the potential tax consequences to you of an investment in the Fund under all tax laws applicable to you.

FINANCIAL HIGHLIGHTS

The financial highlights table is intended to help you understand the Fund's financial performance for the past five years. The financial highlights for the periods prior to April 1, 2019 represent the periods during which the Fund was named AdvisorShares Madrona Global Bond ETF and sub-advised by Madrona Funds, LLC. Certain information reflects financial results for a single Fund share. The total returns in the table represent the rate that an investor would have earned or lost, on an investment in the Fund (assuming reinvestment of all dividends and distributions). This information has been derived from the financial statements audited by Tait, Weller & Baker LLP, an independent registered public accounting firm, whose report, along with the Fund's financial statements, are included in the Fund's Annual Report, which is available upon request.

Investment Operations					
Net Investment Income (Loss) ⁽¹⁾	0.81	1.04	0.90	0.81	0.75
Net Realized and Unrealized Gain (Loss)	(0.10)	0.38	(0.50)	0.25	0.59
Distributions of Net Realized Gains by other investment companies	—	—	—	0.01	0.06
Net Increase (Decrease) in Net Assets Resulting from Investment Operations ⁽²⁾	0.71	1.42	0.40	1.07	1.40
Distributions from Net Investment Income	(0.84)	(1.10)	(0.89)	(0.80)	(0.76)
Distributions from Realized Capital Gains	—	—	—	—	—
Total Distributions	(0.84)	(1.10)	(0.89)	(0.80)	(0.76)
Net Asset Value, End of Year/Period	\$ 25.58	\$ 25.71	\$ 25.39	\$ 25.88	\$ 25.61
Market Value, End of Year/Period	\$ 25.57	\$ 25.70	\$ 25.38	\$ 25.89	\$ 25.62
Total Return					
Total Investment Return Based on Net Asset	2.73%	5.82%	1.55%	4.23%	5.76%
Total Investment Return Based on Market Value ⁽³⁾	2.75%	5.80%	1.47%	4.24%	5.84%
Ratios/Supplemental Data					
Net Assets, End of Year/Period (000's omitted)	\$ 8,312	\$ 5,785	\$ 18,405	\$ 17,466	\$ 20,488
Ratio to Average Net Assets of: ⁽⁴⁾					
Expenses, net of expense waivers and reimbursements ⁽⁵⁾	0.95%	0.95%	0.95%	0.95%	0.95%
Expenses, prior to expense waivers and reimbursements ⁽⁵⁾	1.50%	1.49%	1.22%	1.20%	1.05%
Net Investment Income (Loss) ⁽⁵⁾	3.14%	4.14%	3.47%	3.15%	3.01%
Portfolio Turnover Rate ⁽⁶⁾	765%	150%	39%	21%	24%

⁽¹⁾ Based on average shares outstanding.

⁽²⁾ The amount shown for a share distribution throughout the period may not correlate with the Statement of Operations for the period due to the timing of sales and repurchases of Fund Shares in relation to income earned and/or fluctuating fair value of the investments of the Fund.

⁽³⁾ Net asset value total investment return is calculated assuming an initial investment made at the net asset value at the beginning of the period, reinvestment of all dividends and distributions on ex-date, if any, at net asset value during the period, and redemption on the last day of the period. Market value total return is calculated assuming an initial investment made at the market value at the beginning of the period, reinvestment of all dividends and distributions at market value during the period on pay date, and sale at the market value on the last day of the period.

⁽⁴⁾ The AdvisorShares Folio Beyond Smart Core Bond ETF invests in other funds and indirectly bears their proportionate shares of fees and expenses incurred by the funds in which the Funds are invested. These ratios do not include these indirect fees and expenses.

⁽⁵⁾ Excludes expenses incurred by the underlying investments in other funds.

⁽⁶⁾ Portfolio turnover rate excludes the value of portfolio securities received or delivered as in-kind creations or redemptions of the Fund's capital shares.

ADDITIONAL INFORMATION

Additional and more detailed information about the Fund is included in the Fund's SAI. The SAI has been filed with the SEC and is incorporated by reference into this Prospectus and, therefore, legally forms a part of this Prospectus. The SEC maintains the EDGAR database on its website (<http://www.sec.gov>), which contains the SAI, material incorporated by reference, and other information about the Fund. You may request documents from the SEC, upon payment of a duplication fee, by emailing the SEC at publicinfo@sec.gov.

You may obtain a copy of the SAI and the Annual and Semi-Annual Reports without charge by calling 877.843.3831, visiting the website at www.advisorshares.com, or writing to the Trust at 4800 Montgomery Lane, Suite 150, Bethesda, Maryland 20814. Additional information about the Fund's investments is available in the Fund's Annual and Semi-Annual Reports. Also in the Fund's Annual Report is a discussion of the market conditions and investment strategies that significantly affected the Fund's performance during the last fiscal year.

No one has been authorized to give any information or to make any representations not contained in this Prospectus or in the SAI in connection with the offering of Fund shares. Do not rely on any such information or representations as having been authorized by the Fund. This Prospectus does not constitute an offering by the Fund in any jurisdiction where such an offering is not lawful.

The Trust's SEC Investment Company Act File Number is 811-22110.
